

Swiss Refute Soviet Charge Of Bungling

GENEVA (AP) — Switzerland has sharply rejected the Soviet Union's complaints about Swiss security in the case of a Russian disarmament delegate's defection to the United States.

Rene Helg, president of the Geneva cantonal (state) government, Wednesday called the Russian charges "unfounded, unjust and unfriendly." He said the Russians refused to cooperate with Swiss authorities and even hindered the Swiss police investigation.

Semyon K. Tsarapkin, chief Soviet delegate to the international disarmament conference, accused Western agents of "provocative activity" in the defection of Yuri I. Ossenko, 36.

He has been identified by U.S. officials as an officer of the Soviet KGB security agency.

In a statement to newsmen, Tsarapkin accused Switzerland of failing to provide adequate security for delegates and demanded the Swiss get Nossenko back.

Summoning Soviet Ambassador Alexander Lechtchikov to his office in Bern, Foreign Minister Friedrich Wahlen handed the Soviets a stiff protest against Tsarapkin's remarks.

At a news conference in Geneva, Helg said Tsarapkin waited 29 hours before informing Swiss police of Nossenko's disappearance.

Helg declared the Russians refused to give Swiss police a photograph of Nossenko, his birth date or particulars of his background, and refused to allow inspection of his belongings or permit questioning of other members of the Soviet delegation.

Swiss police said Nossenko slipped into neighboring France Feb. 4. There is no indication of his present whereabouts. On Monday, the U.S. State Department announced he had asked for political asylum in the United States.

Western officials regard the defection as a "serious embarrassment" to the Russians and say Nossenko may give the West some important clues to Soviet disarmament tactics.

Showman Makes \$10,000 An Hour On AT&T Stock

NEW YORK (AP)—Broadway showman Billy Rose has been making \$10,000 an hour every hour that the New York Stock Exchange has been open since Oct. 15, 1963, his press agent estimated Wednesday.

His huge holdings in American Telephone & Telegraph Co., New York Central and Pennsylvania railroads have risen \$4 million in value in recent months.

His long term profits in AT&T, in which he is the largest individual stockholder, total more than \$8 million.

Weather

By The Associated Press

Upper Peninsula — Mostly cloudy with scattered snow flurries this afternoon. Gradual clearing and colder tonight, low 10 to 18. Friday, increasing cloudiness and a little warmer with a chance of snow west by afternoon, high 28 to 33.

Lower Michigan — Mostly cloudy with scattered snow flurries this afternoon. Gradual clearing and colder tonight, low 14 to 22 degrees. Friday, partly cloudy and mild, high 30 to 38.

Highest temperature Wednesday, 39, lowest, 28.

Highest temperature one year ago today, 25, lowest, 15.

Highest temperature this date since 1872, 63 in 1938, lowest, —12 in 1905.

The sun sets today at 6:12 p.m. and rises Friday at 7:53 a.m.

Lundgren Plan On Districting Has Hard Going

LANSING (AP)—A legislative redistricting plan sponsored by Sen. Kent Lundgren, R-Menominee, appeared today to face an uphill course with the Committee on Senate Business.

The committee failed to vote on the proposal at a meeting Wednesday afternoon. And some committee members said indirectly they believed no action would be taken this week.

This would run out the clock on the Lundgren plan, which is in the form of a resolution memorializing the State Apportionment Commission to consider it and possibly forward it to the Michigan Supreme Court.

The court, which took over the legislative redistricting job from the commission Feb. 1, has set next Monday as the deadline for submission of plans.

Lundgren, a former delegate to the Constitutional Convention, drew up the plan in hopes of giving the legislature the initiative in reapportionment.

Committee member Raymond Dziedzic, D-Detroit, said he believed the Lundgren plan will die in committee "and it should."

"The constitution gives the legislature no prerogative in apportionment. Lundgren was a con-con delegate and that's the way con-con wanted it," said Dziedzic, the Senate minority leader.

Lundgren had argued in vain at the convention against creating the commission.

Chairman John Fitzgerald, R-Grand Ledge, would make no prediction on whether the apportionment plan would reach a committee vote.

Judge Ruffles GM Has No Monopoly On 'Cadillac'

GRAND RAPIDS, Mich. (AP)—A federal judge told General Motors Corp. Wednesday it does not have a monopoly on the word "Cadillac" and ordered it to pay \$41,000 to another company defending its right to use the name, too.

GM sought to enjoin Cadillac Boat Co. from use of Cadillac as a trademark, but U.S. Dist. Judge Noel P. Fox noted that the defendant started operations on the shore of Lake Cadillac and the name had geographic meaning.

Fox ordered GM to pay the boat company \$41,000 in attorney fees, holding that GM had attempted to place an economic burden upon "a small corporation of limited assets so that it would be forced to yield to the unjust demands of plaintiff."

Youngest Chicago Mother, Age 10, Has Baby Girl

CHICAGO (AP)—A 10-year-old girl gave birth Wednesday night to a 5-pound, 15-ounce girl and became the youngest mother on record in Chicago.

The child-mother, a fourth grade pupil, and the baby were reported in good condition by the physician who delivered the infant by Caesarean section at St. Bernard's Hospital. The child had been taken to the hospital three weeks ago after a parochial school teacher discovered the girl was pregnant.

Hospital authorities said the baby was taken to St. Vincent's Orphanage. They said there is little chance the young mother will ever see her daughter.

A 16-year-old boy was said to be the father.

Ames Laughs Off Extortion Flop; Gunman Caught

NORTH HOLLYWOOD, Calif. (AP)—Veteran actor Leon Ames, released after being held at gunpoint for four hours in a \$50,000 extortion attempt, laughed it off.

"I've played a lot of these parts before," he said.

Ames, who also is a prominent auto dealer, his wife, Christine, and two others were involved in the real-life drama Wednesday that ended with the capture of a young mechanic who had fled with Mrs. Ames as a hostage.

She was released unharmed after police, directed from a helicopter overhead, surrounded the car.

Like Gangster Movie Ames, 61, plays in the "Mr. Ed" television series and was a star in the series, "Life With Father," as well as many movies.

He said the action, reminiscent of a gangster movie, started when "I heard the doorbell ring. It was just after 8 a.m. There was a young fellow standing there with a gun. He said, 'Back up and shut up.'"

"He said, 'This is a holdup and a kidnap. Don't try anything funny.'"

"I couldn't believe it. He said one false move and my wife would be dead."

"He asked for \$50,000 within two hours. I pretended to be sick, thinking maybe I could get the gun, but then I realized that was silly."

When Ames told the man he did not have \$50,000, the suspect told him to contact his partner, Ralph Williams, and tell him to come to the Ames' home for a business conference.

When Williams arrived, the gunman held him, Ames and his wife, and a house guest, Herbert F. Baumgartner, 50, at gunpoint until nearly 10 a.m. when the Bank of America branch opened.

Pistol Cocked The gunman ordered Williams to get the \$50,000 from the bank in small denominations.

"Bring it here by noon or I'll kill all three of these people," he warned.

They sat in the Ames home, drinking coffee under the watchful eye of the young man with the cocked pistol, until Williams returned with the money about 12:15.

He handed over the money. He didn't say he had notified police and that the place was surrounded by officers—including one in a helicopter overhead.

The gunman had Williams tie Ames' mouth, ankles and wrists, then locked Williams and Baumgartner in the trunk of Ames' car.

He ordered Mrs. Ames to drive him in Williams' car after letting her put a coat on over her housecoat and pajamas.

Seven blocks away, Mrs. Ames stopped the car for a traffic light and seven police cars moved in. An officer pointed a shotgun at the suspect's head and he surrendered.

Police recovered the money and booked Lynn Wayne Benner, 21, of La Mirada, on suspicion of kidnaping and robbery.

Also arrested was Benner's wife, Patricia Louise, 25, who was waiting in a car parked four blocks from the Ames home. With her was their 3-year-old daughter.

She said she knew nothing of the plot but was booked on suspicion of kidnaping.

Police recovered the money and booked Lynn Wayne Benner, 21, of La Mirada, on suspicion of kidnaping and robbery.

Also arrested was Benner's wife, Patricia Louise, 25, who was waiting in a car parked four blocks from the Ames home. With her was their 3-year-old daughter.

She said she knew nothing of the plot but was booked on suspicion of kidnaping.

Police quoted Benner as saying: "I was broke. I thought this was a way to clear up my bills and have some money to live on."

Lansing Mayor To Oppose Hart

LANSING (AP)—Mayor Willard I. Bowerman said today he may seek the Republican nomination for U.S. Senate this year.

"I am generally interested in the Republican Party presenting a good candidate to oppose Philip Hart," said Bowerman. "I can't be beaten."

Bowerman, 46, is the third year of his first four-year term as mayor. A Lansing native and an attorney, he spent eight years as a state representative.

He said he has been offered "substantial" financial help from a group of friends in Lansing no matter what office he should decide to run for.

Bowerman said, however, he won't make up his mind whether to run until he has a chance to "talk it over with old friends" in the legislature.

As of now, the only announced candidates for the GOP nomination in the Aug. 3 primary are James F. O'Neil, of Livonia, and Edward R. Meany, a Grand Haven attorney.

Congress Asked To Lift Ban On School Prayers

LANSING (AP)—Over the protests of some members that it was either wrong or unnecessary, a controversial legislative resolution on school prayers was on its way to Congress today.

The resolution—asking Congress to initiate action to amend the U.S. Constitution to assure a right to offer prayers in public schools—rolled through the House on a 76-26 vote Wednesday.

The proposal earlier had passed the Senate, where it originated, with 18 affirmative votes and an unrecorded number of no votes.

Sponsored by Sen. Milton Zaagman, R - Grand Rapids, the resolution specifically asks that the constitution be amended to provide that "the free exercise of religion shall include the right to offer prayers in public schools."

Zaagman said he seeks to "clarify" this right in view of a U.S. Supreme Court ruling last year that an official prayer prescribed for public schools in New York was illegal.

In 45 minutes of debate preceding the House vote, opponents of the resolution argued it was unnecessary because the high

court ruling concerned only a "government - prescribed" prayer.

"The right to offer prayers in schools now exists," declared Rep. Joseph Gillis, D - Detroit. "A yes vote might be construed to indicate this legislature does not believe this constitutional right now exists."

Rep. William Ryan, D - Detroit, said he feared an amendment such as proposed by the resolution would pose a threat to religious freedom.

"If you spell out permission to pray, you're saying anything not spelled out as being permitted is prohibited," Ryan said.

Some supporters of the proposal, among them Rep. Roy Spencer, R - Attica, said they viewed the question as fundamental in American government.

Spencer said, "we're not injecting religion into the schools. We are merely eliminating a ban against prayers."

There was a brief smattering of applause when Rep. John Sobieski, D - Detroit, said Congress should tell the U. S. Supreme Court "our people are still for God and country."

Truce Halts Vicious Fighting On Cyprus

President And Prime Minister Get Along Well

WASHINGTON (AP) — President Johnson and British Prime Minister Sir Alec Douglas-Home meet today to discuss disarmament problems and such ticklish economic questions as long-term credits to Communist countries.

White House sources reported that the talks between the two leaders Wednesday went extremely well.

The prime minister and Foreign Secretary Richard A. Butler told Johnson and Secretary of State Dean Rusk that the British government wholeheartedly supports the U.S. position on South Viet Nam, British spokesmen reported.

Sources said Johnson and Douglas-Home established good rapport in their first formal meeting despite differences on such delicate problems as trade with Communist countries in general, and especially U.S. resentment over the British sale of \$11 million worth of buses to Cuba.

This topic, informants said, was disposed of quickly when the prime minister did not conceal his annoyance over American criticism of the sale.

He was reported as having told Johnson: "—Britain, while barring the export of strategic goods to Communist countries, intends to carry out peaceful trade with them."

—The British are at a loss to understand the difference between the United States feeding Communists with American wheat, but objecting to Cubans being transported on British buses; and

—In general, that Britain's economy depends on foreign trade, while that of the United States does not.

He also repeated the British view that a lean and hungry Communist is more dangerous than a fat one, a thesis which—London believes—supports Britain's insistence on free trade with the Communists.

Traffic Snarled By C & O Wreck

FLINT (AP)—Traffic on the Chesapeake & Ohio Railroad's main line between Flint and Detroit was snarled Wednesday by a derailment.

Twenty-two cars of a C&O freight train jumped the tracks near downtown Flint. Cause of the derailment was not immediately determined.

The mishap also caused an automobile traffic jam on Court St. No one was injured in the derailment.

Steel Workers Start 13-Week Paid Vacations

PITTSBURGH (AP) — Veteran steelworkers are hurrying out of mill gates these days with an extra bounce in their steps and smiles on their faces.

Outside the gate, there is back-slapping and laughter. The oldtimers then head home to enjoy something few of them could envision for themselves years ago.

They are starting, for the first time, 13-week paid vacations granted in the current steel labor contract.

Many scatter to far-off vacation spots. Others stay home, leisurely tackling odd jobs around the house and perhaps planning a trip later. Some just take it easy, relishing the simple luxury of doing nothing.

"Best thing they could do for a workingman; it's wonderful,"

Action Revived On Billboards

LANSING (AP) — The Senate Wednesday gave new life to a special billboard committee which has issued stinging reports critical of the State Highway Commission.

The committee, created by the 1963 legislature with a one-year life span, was re-created under a resolution calling for "the establishment of proper criterion for the erection of roadside signs."

Sen. Kent Lundgren, R-Menominee, serves as chairman of the committee. The other members are Sens. Haskell Nichols, R-Jackson, and Charles McManiman, D-Houghton.

The new resolution gives the committee a \$2,000 expense account and empowers it to continue its investigation and report to the 1965 legislature.

The committee's report to the current legislature rebuked the Highway Department for "zeal to remove everyone's sign throughout the state from the highway rights-of-way."

"This involves people who had verbal agreements with the Highway Department years ago but all of a sudden have had these agreements ignored," the report said.

German Accused In Mass Murders Killed In Fall

FRANKFURT, Germany (AP)—Dr. Werner Heyde, facing trial next week as a Nazi war criminal, committed suicide in his cell at Butzbach Penitentiary, the state prosecutor's office announced today.

Wednesday another defendant in the case, Friedrich Tillmann, leaped or fell from the window of a washroom in the eighth floor of an office building in Cologne.

The two were to have gone on trial in Limburg next Tuesday charged with the killing of 70,000 persons of 200,000 executed by the Nazis as mental defectives.

Tillmann, 60, was office chief of what the Nazis called its euthanasia, or painless killing center in Berlin during World War II. Heyde, 61, also was employed at the center. Tillmann became director of the Cologne Orphan Asylum after the war.

Two Indicted For Racket In Stolen Autos

GRAND RAPIDS (AP) — A Holland auto parts dealer and a Chicago man were indicted by a federal grand jury Wednesday on charges of receiving and selling stolen cars in an interstate operation.

Named in the action were Howard M. Veneklasen, 4, owner-operator of H. H. Veneklasen Auto Parts at Holland, and Joseph T. Mack, 22, of Chicago.

Assistant U. S. Attorney David Soet said Veneklasen, arrested last Dec. 5, is free on \$5,000 bond and faces arraignment Feb. 18.

Police Capt. Donald Boe quoted Cochran as saying he had planned to kill himself after his wife and children were slain, but "chickened out."

Boe said Cochran expressed hope the state will put him to death and "do what I haven't the nerve to do."

Cochran refused legal counsel.

British Curb Clash; Turkish Losses Heavy

NICOSIA, Cyprus (AP) — Heavy fighting broke a ceasefire in the southern part of Limassol at dawn today and Greek Cypriots swung make-shift armor into a five-hour battle against the Turkish quarter.

Then the British arranged another truce.

The shooting came as American and British diplomats pursued talks in Nicosia with the aim of landing an international peace force on this troubled island.

An Associated Press correspondent said he saw five Turkish dead in a Turkish Cypriot area of Limassol overrun in the battle. He said the total could be determined only after officials gained access to the surrounded quarter.

Greeks Use Bulldozers Greek Cypriots said they lost one dead and several wounded.

A British military source said the Greek Cypriots used armored bulldozers, an old tank and homemade armored cars.

The original ceasefire was established Wednesday night.

British troops moved in as a last resort to try to separate the combatants and were themselves fired on. Such hazards are one reason Britain wants to surrender its police role to an international truce force.

U. S. Envoy Stays On Maj. Gen. Peter Young British commander of the Cyprus truce force, had flown to Limassol with the Greek Cypriot interior minister, Polycarpus Yeo-gadjis, to talks to the combatants.

The savage fighting came as Undersecretary of State George Ball again met with President Makarios in an attempt to get his approval of an international force to keep the pace on Cyprus.

Greek Cypriot sources said Makarios had rejected the proposal, but the continued negotiations lent some hope that the Greek Cypriot leader would modify his stand. Ball postponed his departure Wednesday night to continue the talks.

American and British specialists were reported in Washington to be working on a fallback proposal, ordered after Ball's lack of progress was reported to President Johnson and British Prime Minister Sir Alec Douglas-Home.

The government radio asserted that 20 Turkish cypriots were killed in Wednesday's fighting for the castle at Limassol and that Greek Cypriot casualties were one dead and several wounded.

Two Lawmakers Call For Cut In Voting Age To 18 LANSING (AP)—Two Detroit area lawmakers asked the Senate Wednesday to go along with their proposal to lower the voting age from 21 to 18.

Sens. William D. Ford, D-Taylor, and John T. Bowman, D-Roseville, introduced a resolution to set up a state constitutional amendment on the issue.

A similar proposal was filed in the House Jan. 30 by Reps. Harry Demaso, R-Battle Creek, and Paul Chandler, R-Livonia. Their resolution is now before a House committee.

Gov. George W. Romney has indicated he supports in principle the proposal to let 18 year olds enter the voting booth.

If the resolution wins two-thirds support in both legislative chambers, Michigan voters would have the final say in voting on a constitutional amendment.

Bowman said chances were "very good" that the proposal would clear the legislature.

Family Killed; Father Wants Electric Chair

JOLIET, Ill. (AP)—Albert P. Cochran, whose wife and three children were killed, expressed hope Wednesday for death in the electric chair.

Cochran, 25, formerly of Kalamazoo, Mich., has been charged with murder. Police said he admitted choking his estranged 19-year-old wife, but that he accused his wife of stabbing to death their three young-sters.

Police Capt. Donald Boe quoted Cochran as saying he had planned to kill himself after his wife and children were slain, but "chickened out."

Boe said Cochran expressed hope the state will put him to death and "do what I haven't the nerve to do."

Cochran refused legal counsel.

DeGaulle Plans Argentina Visit

BUENOS AIRES, Argentina (AP) — President Charles de Gaulle probably will visit Argentina in September or October, a delegation of five French deputies said today. The French president also plans visits to Mexico, Martinique and other Latin-American countries.

School Lunches Should Pay Own Way, Says Board

Continuing and mounting deficit in the operation of the Escanaba Area Public School's lunch program must be halted and the program put on a self-sustaining basis, the school board has decided.

The board meeting Tuesday night asked Supt. Walter Bright to prepare recommendations designed to make the school lunch program self-supporting, and expressed surprise at some of the operating practices.

The report on school lunch was presented by Lawrence Klug and Ted Breitenbach. As of Jan. 30 receipts totaled \$14,225, disbursements were \$24,972, and the school lunch deficit totaled \$10,746.

Reasons for the mounting deficit were several, ranging from increased costs for labor to far below-cost charge made for meals at some schools. There is lack of uniformity on the charge paid by the student for meals, ranging from 15 cents in one school to 30 cents at another.

Charges Vary
The charge for meals has remained unchanged in most schools in the district for the past 10 or 12 years, despite rising costs. A few meals are supplied free in hardship cases on recommendation of the County Welfare Department.

Cornell school began the current school year with a deficit of \$1,165 in its lunch program and the deficit was \$1,139 as of Jan. 30 this year. School lunches cost the student 15 cents at Cornell. At the Lemmer School in Escanaba the charge is 30 cents.

Some of the schools have only the milk program, others have hot lunches. The milk program is at the Washington, Webster and Jefferson Schools in Escanaba.

A total of about 1,450 meals are served each school day. Of this number, about 1,000 are to students in the Area Junior and Senior High Schools and at the Lemmer School.

The board was told by Breitenbach that "we are buying 61,000 bottles of milk a month, all of it bought locally, and paying a premium price for it." Bids are not asked on milk, although he agreed it would be a good business practice.

Should Take Bids

"We are obligated to save very cent we can," said Dr. William Hemes, president of the school board. "No doubt we should take bids on this as we do for other supplies."

The lunch program has the assistance of the federal government with supplies of surplus foods and there is state reimbursement for part of the cost.

The school board indicated in discussion of the program that school lunch should be on a self-sustaining basis, as is the adult education, band camp, and certain other programs.

In other business the school board welcomed Gary Butryn, president of the Area High School student council, and received from him an invitation to attend meetings of the student council.

David Lindstrom was granted an equivalency high school diploma by the board. Lindstrom's education was interrupted by military service and he completed a general educational development test while in service.

Special Week

LANSING (AP)—Gov. George W. Romney has proclaimed next week Engineering Week in Michigan.

Board Okays Band Camp

A second year sponsorship of the Junior High School Band Camp was approved by the Escanaba Area Public Schools board of education, with the understanding that the camp is to be self-supporting and therefore without cost to the taxpayers.

Last year's one week Band Camp at Clear Lake in the Hiawatha National Forest was an outstanding success, David Laakso, band director and director of the camp project, told the school board Tuesday night.

The 1963 camp expenditures totaled \$1,799 and there is a balance of \$189 to apply toward the camp budget this year, he said.

The recent concert of the three High School Bands brought \$306 in contributions although no admission was charged, and there was a profit of \$1,740 from the annual candy sale, he reported.

"This year we hope to have the camp for two weeks rather than one week as we did last year," Laakso said. "The first week would be for the sixth and seventh grades and the second week for seventh and eighth grades."

"The enthusiasm is high and we should consider the possibility of a third camp week, perhaps for string instrument students. Other areas than music might be considered, such as nature study and biology," Laakso suggested.

Blood Program Gamma Globulin Fights Infections

Michigan's State Health Department produced and the physicians in the state received an estimated 25,000 milliliters of the blood-based serum, gamma globulin, without charge from American Red Cross in the last year, John P. Otte, Jr., volunteer Red Cross National Fund vice chairman for Michigan, announces.

Voluntary donors to the Red Cross blood program make possible distribution of blood-derived vaccines to state health departments, and in special cases to individual physicians. Gamma globulin is used to modify the effects of measles and hepatitis and fight other infections.

It is the most widely used of a small but increasing group of blood-based serums distributed without charge by the Red Cross, each of which has a specific application in medical treatment. In the last fiscal year, 1,144,224 milliliters were produced for Red Cross by commercial laboratories from plasma, the liquid portion of blood outdated when not requisitioned for direct transfusion within 21 days of its collection.

Sledding Party At Rapid River

RAPID RIVER — The Sunday School of Rapid River's Congregational Church will have a sledding party Saturday, Feb. 15. The children and the parents who are providing transportation are asked to meet at the church at 1:30 p. m. The party will be held at the Whitefish Pipe Line Hill. After sledding, games will be played and refreshments served in the church's parish hall. Party arrangements were made by Mrs. Albert Bond, Sunday School superintendent.

Health Depts. Fearful Of Loss Of Federal Aid

Directors of public health departments in the Upper Peninsula and the county boards of supervisors which finance them are concerned over trends in financing of the health services provided by these departments.

Outside aid for these health departments is declining and this makes the demands upon local resources heavier. In an area like the Upper Peninsula with its economic problems this trend creates uncertainty about the future of the local health departments and where there is uncertainty it is difficult to build a staff and an effective program.

Recently the directors of Michigan's local health departments were called to Lansing for the annual conference with Dr. Albert E. Heustis, state health commissioner.

They came away concerned over the tendency of the Federal Government to give its support money for local health departments to specific projects, rather than in broad support of the department's total programs.

Centralization Trend

And they were concerned about the tendency toward centralization in the Michigan State Health Department's program. There's more and more staff in Lansing, at the heart of the system, but there's not much prospect that there is going to be more blood for the capillaries in the Upper Peninsula.

It's good to have the central system improved, say field health workers, but when the front line forces that are actually dealing with the everyday problems of public health are struggling to meet the needs, consultative type services from Lansing are no substitute for elbow-to-elbow aid.

Local health departments are

In Service

Army PFC Robert J. Greenlund son of Mr. and Mrs. John E. Greenlund, Ensign, completed a driver training course given by the 59th Artillery in Hanau, Germany, Jan. 29.

The 22-year-old soldier, a repairman in the artillery's 223d Ordnance Detachment near Hanau, entered the Army in March 1963. He completed basic training at Fort Leonard Wood, Mo., was last stationed at the Redstone Arsenal in Alabama, and arrived overseas in September 1963.

Greenlund is a 1959 graduate of Rapid River High School and was employed by the Mowhawk Construction Co., Des Plaines, Ill., before entering the Army.

supported chiefly by local tax revenues, but while there's a national trend toward federal takeover of many local government functions, in the field of public health the Department of Health, Education & Welfare is inclined to finance its own local programs and let the local departments struggle with their routine problems.

The Delta-Menominee Health Department gets \$15,000 to \$16,000. The rest of the department's funds come from Delta County, \$27,700, the same as in 1963, and Menominee County, \$20,000. The department has had only one budget increase since 1959.

(The counties' shares of support are determined by the population served; Delta has most population.)

Of the \$13 million budgeted for local health services in Michigan in the 1963-64 year, more than \$11.6 million will come from local sources. The rest consists of \$350,000 in state subsidy and \$1,029,738 in federal funds. About half the federal money is distributed on a population basis and the rest is in grants for special projects like cancer detection, heart disease prevention, diabetes screening, etc.

Big Brother Trend
If these federal funds were for unrestricted local use, they could be put to much better use, say local health officers, but the current prospect is that in a year or two the aid on a population basis will be withdrawn completely, leaving even more burden for local support.

Both the state and federal governments have an interest in the local health departments, because unless they care for local needs there will be a demand for state and federal services. The trend in this direction because of the increasing local cost of public health service creates a paradox in which state and federal services that will be even more costly become more likely.

Obituary

GENEVA FLYNN

Funeral services for Miss Geneva Flynn were held this morning at 9 a.m. at St. Patrick's Church with the Rev. Thomas Coleman officiating. Pallbearers were Joseph Schleis, Martin Vandenberg, Arthur Messier Sr., Alfred Provencher, Leo Laviolette, John Dishno. Burial was in Holy Cross Cemetery.

MRS. MARY SHOMIN

Funeral services for Mrs. Mary Shomin were held at a Solemn Requiem High Mass at 9 a.m. today at St. Thomas the Apostle Church. Father Arnold Thompson was celebrant, Father Lawrence Gauthier, deacon, Father Donald Shiroda, sub-deacon. Burial was in Holy Cross Cemetery. The honorary pallbearers of St. Thomas Guild were Mrs. Marko Goloback, Mrs. Matt Miller, Mrs. William Cashin and Mrs. Henry King. Active pallbearers, grandsons, were Gerald, Robert and Donald Paterick, Michael Kidd, Gerald Richards and James Cook.

The services of Croatian Fraternal Union, Lodge 335, were conducted by Don Marvic.

WILLARD HAMACHER

Funeral services for Willard Hamacher of Cunard will be held Saturday at 9:30 at St. Mary's Church in Hermansville with Father Patrick Frankard officiating. Burial will be in Meyer Township Cemetery. Friends may call at Kell-Tondin Chapel in Spalding after 2 p.m. Friday and rosary will be recited there at 8 p.m.

Escanabans To Help Writers

STAMBAUGH — The first mid-winter Upper Peninsula Writers Conference on Saturday in Sambaugh elementary school promises to be a successful gathering for creative U. P. writers, says Arlene Shovald.

She expects over 100 authors and aspiring writers to attend the event from Iron River, Sambaugh, Crystal Falls, L'Anse, Escanaba, Baraga, Iron Mountain, Kingsford, Hermansville, Hancock, Channing, Pelkie, Negaunee, Bessemer, Aurora, Ishpeming, Champion, Calumet, White Pine, Kenton, Fredrics, Marquette, Gwinn, Munising, DeTour Village, Powers and Green Bay, Wis.

Main speaker will be Arni Lunathan of the journalism and English staff of Bay de Noc Community College. William Finlan, journalism instructor at Escanaba Area High School will moderate a panel discussion on journalism. Mrs. Jean Wolcott Piper, Iron River and Mrs. Nancy Weigel, Marquette, head the poetry workshop; Arne Arntzen, Escanaba, will direct the short story group; Edwin Phelps Jr., of WIKB, Iron River, is in charge of radio writing, and Miss Pearl Senical, Sambaugh, will head the book discussions.

A \$2 registration fee which will cover the noon meal at Grace Covenant Church parlors will be charged. The conference will begin at 9 a.m., and close at 4:30 p.m.

Fire Department Names Officers

HERMANVILLE — Newly elected officers of the Hermansville Volunteer Fire Department are: Carl Swanson, president; Arthur E. Schultz, vice president; Harold Stecker, treasurer; Frank Antonetti, secretary. The volunteer group meets the first Wednesday of every month. Outgoing officers are John Duca, Eugene Stockero, Oliver Wood and Lester Johnson.

Dean's List

HOUGHTON — Sixteen students have been cited at Michigan Tech for achieving a 4.00 grade point average during the fall quarter, according to Dean of Students Harold Meese. Peninsulans who earned a 4.00 average were: Virginia Anderson, Caumet; Philip Quenzi, Hancock; Charles Weber, Houghton; Gordon Lyon, Negaunee.

Reduced Speed Suggested Best For School Area

Reasons why reduced speed flashing signals are better for the safety of students than stop and go lights on S. 23rd St. in the area of the Area Public High School and St. Anne's School have been presented to the Area school board by the State Highway Department.

Larry V. Suboski, Newberry, the Highway Department's assistant district traffic engineer said the Department's traffic and safety officers and Michigan State Police have studied the problem and feel that:

1 - Students cross M-35 (S. 23rd St.) at various points in the school area. To install a stop and go signal will not concentrate the pedestrian traffic.

Walking Habits

"To see the fallacy of thinking that stop and go signals correct pedestrian problems by making people cross in crosswalks and when they have the 'Walk' signal as they should, you only have to go downtown in Escanaba and watch the walking habits of people where stop and go signals control traffic."

2 - Stop and go signals on S. 23rd St. would "set up a serious automobile accident potential." There would be an increase in rear-end collisions.

"Also, we know that motorists sometimes do not stop for red signals and we know that sometimes pedestrians step out into the highway thinking the motorist is going to stop as he should, which creates another accident potential."

Be Confusing

3 - Even if stop and go signals were installed, they would not operate on a 24-hour day but only at certain periods on school days.

Varying the signal back and forth from stop and go to flashing amber warning would tend to confuse the motorist. Such changing signals are "very poor business from a safety standpoint."

"In summary, we can say without hesitation that stop and go signals are not the answer for safety in your school area. In fact we feel strongly

that the accident potential would definitely be increased by installing stop and go signals."

The traffic engineer said the Department does have "positive recommendations for the safety of your students," however.

Need Sidewalks

"All of the traffic safety people that have studied this problem think the most important item that should be accomplished by the people in your area is to construct a complete side walk system in the school area and to keep these sidewalks plowed in the winter. These sidewalks should be built in the areas where the people want to walk so they will get the maximum use."

"Our other recommendation is that flashing school speed limit devices be installed to alert motorists of the school condition and to lessen their speed. With students crossing in various places and walking on the edge of the highway, motorists should be warned in advance so they know what to expect."

The traffic engineer said the Department is planning the installation of such devices. Fifty per cent of the cost will be borne by the City of Escanaba. Under law the schools may not participate in such public safety projects on highways and streets.

Smoked Chubs Sold Out Fast

GRAND HAVEN (AP) — A trial sales test of chubs smoked by H. J. Dornbos Fisheries here led to a sellout of a 16-pack carton within hours Wednesday after it was offered for the first time by a Grand Haven supermarket.

Store operator Henry Casimer ordered four more cases for use today and said he had requests all week for the smoked chubs.

Dornbos, which smoked two million pounds of fish annually before closing down voluntarily last October for investigation of a botulism outbreak, resumed operations on a limited basis last Monday.

The firm, world's largest smoker of Great Lakes chubs, called back six employees from a regular peak work force of 38. Harold Dornbos, president, said his firm would process the fish on order until demands increase.

He said his output this week had been about one ton per day, compared with six to seven tons per day before the shutdown.

Mission Opens Sunday Night At St. John's

GARDEN—Rev. James Donnelly has announced that Rev. Patrick Reynolds O. P. will conduct a mission at St. John's Church, Garden, beginning Sunday evening Feb. 16, and closing Saturday, Feb. 22.

Rev. Reynolds is a member of the mission band from St. Dominic's Priory, Youngstown, Ohio, and is well known in this area, having conducted missions in Escanaba, Schaffer, Flat Rock and Perkins.

He also will be in charge of the spiritual exercises at the first retreat of the season for men of the Escanaba Deanery at Marygrove Retreat House Feb. 14-16.

Daily earth tide changes may be due to swirling in the earth's supposedly molten core.

Movie Theaters Have Revival

By BOB THOMAS
AP Movie-Television Writer
HOLLYWOOD (AP) — For an industry that was supposed to curl up and die the movie theater business is showing amazing life.

Eugene V. Klein, president of the National General Corp. which runs 222 theaters—Fox West Coast—in 16 states, declares:

"We feel the theater business bottomed out some time ago. The climate has been extremely good for theaters recently. There were times at Christmas when every one of our theaters was sold out, and that hasn't happened for five or six years."

"What has caused the theater revival? Better product. The major reason for the increase of theater business is that Hollywood has been making pictures that people want to see."

"Mostly, it has been good, sophisticated pictures that audiences can enjoy. Like an 'Irma La Douce,' not a great picture but lot of fun."

"I think Hollywood has gotten the message. People won't go to see any Grade B garbage. They won't go to message pictures. They'll pay \$2.50 without complaining to see something they want to see. But if they don't want to see it, you can't get them in on passes."

Gene Klein is a plain-spoken man with the frame of a pro football fullback and a sense of what the public will buy. That knack is demonstrated in National General's latest statement: earnings in fiscal 1963 at \$3,459,600 vs. a loss of \$6,605,919 two years ago.

The veteran film chain had suffered a series of red-ink years before bouncing into the black in 1962. The change in fortune resulted from a modernization campaign that now has the corporation selling not only movie entertainment but houses, dried figs and hootenanny sing-

ers. Among National General's new enterprises: Concerts, Inc., which produces live attractions, including a season of musicals at Santa Monica Civic Auditorium; Mission Pak, the fruit sellers; theater color-vision, for closed-circuit television; mobile rentals, trailer supplier; and housing and commercial developments in Marin, San Francisco, Orange counties, etc.

"But theaters will always be the major portion of our business," said Klein. "We have shut down or sold some and cut the seating capacity in others; some had 3,000-4,000 seats while 950 is a more sensible number today."

Forest Service Planning For New Lab At Houghton

WASHINGTON (AP) — An \$18,400 contract to design a forest engineering laboratory for the U.S. Forest Service at Houghton, Mich., was awarded Wednesday to the office of Gordon Cornwell of Traverse City, Mich.

The General Services Administration said drawings and specifications for the building are to be completed by September. Estimated cost of construction is \$364,000.

Beatles Sing; Can't Be Heard

NEW YORK (AP) — The Beatles played Carnegie Hall Wednesday night and it was an awesome performance.

The Beatles looked like an amusing parody of the worst elements of American rock 'n' roll music. The word "looked" is used advisedly, for no one, especially the screaming little girls, actually heard the Beatles.

The performance—by the girls—began early in the morning and lasted all day and night, the scene shifting from the Plaza Hotel—where the Beatles are staying—to Pennsylvania station—where they were arriving from Washington—to Carnegie Hall.

The performance by the Beatles lasted only for about a half hour at each of two shows on the old concert stage. It is doubtful if anyone, the Beatles, the girls or disinterested observers, could have stood any more.

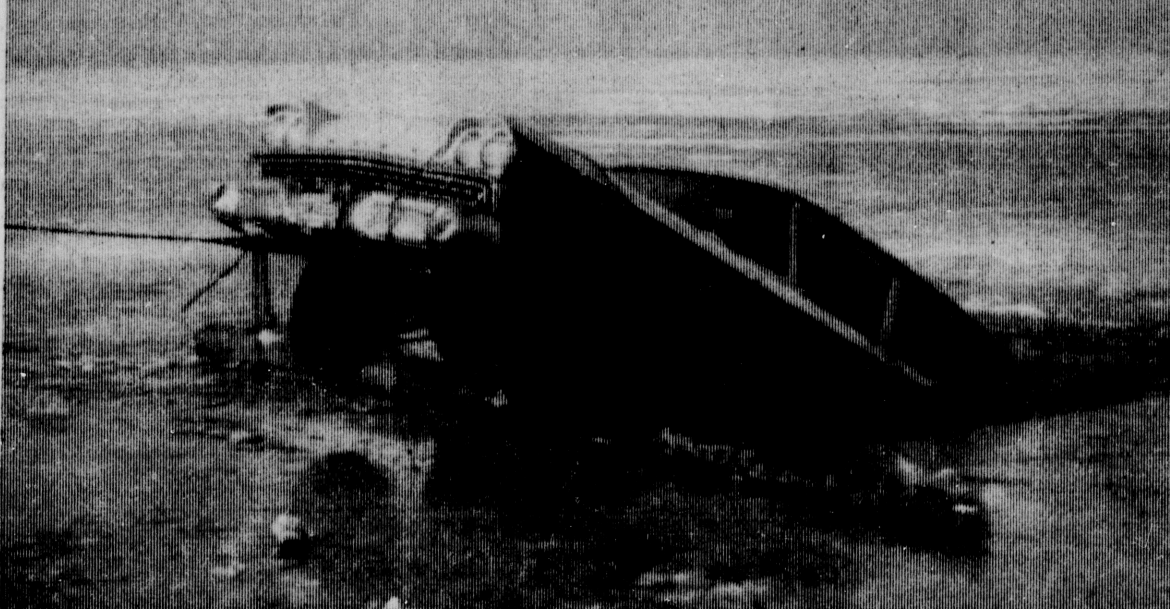

Governor Names New CMU Board

LANSING (AP)—Gov. George W. Romney today appointed all eight members of the first independent governing board of Central Michigan University.

The appointments, subject to Senate confirmation, went to Willis Campbell, Cass City; Lawrence Rahilly, Grand Rapids; Mrs. Katharine Hafstad, Harbor Springs; Walter Wightman, Fennville; Mrs. Ross Backus, Owosso; Lloyd Cofer, Detroit; E. Allan Morrow, Mount Pleasant, and John Sivier, Standish.

The board is created by a provision of the new constitution that sets up independent, eight-member governing boards for each of the state's tax-supported universities and colleges.

One Kind Of 'Car Wash'

THIS AUTO was raised from Little Bay de Noc Tuesday after a "complete car wash"—in side and out. It is owned by Frank Moersch, Escanaba Rte. 1, and was recovered from 45 feet of water by divers Dwaine Taylor and Ed Gardner. Moersch escaped unharmed when the auto went down about 10 days ago. (Dwaine Taylor Photos)

SALVAGED AFTER a couple weeks at the bottom of Little Bay de Noc off Days River was this half-ton truck owned by Girard DePuydt. It was recovered by divers Taylor and Gardner. The ice on Little Bay de Noc is thin, cracked and dangerous. Taylor and Gardner said the condition is particularly hazardous off Gladstone's power plant point.

Miss McRandle Is Dead At 89

Miss Emma McRandle, 308 S. 19th St., who with her sister Loretta, operated Lorette's ready-to-wear shop, here many years, died today at 12:30 a.m. at Pine Haven Nursing Home, Gladstone. She was 89.

Miss McRandle had been in poor health for some time and seriously ill one year. She was born in L'Anse Jan. 2, 1875, and after her graduation from Baraga High School, she taught school for a number of years. Later she attended business college. In 1912 she formed a partnership with her sister, Loretta, and started a ladies ready-to-wear shop in Calumet. They opened Lorette's Shop in Escanaba in 1925. Miss McRandle retired 12 years ago.

She was a member of St. Patrick's Church and St. Patrick's Guild.

Her sister, Loretta, died May 24, 1956, and her only survivor is a sister-in-law, Mrs. Grace McRandle, Duluth.

Friends may call at the Allo Funeral Home after 4 p.m. Friday and parish prayers will be recited at 8:30 p.m. Complete funeral services will be held at St. Patrick's Church Saturday at 11 a.m. The Rt. Rev. Msgr. Martin B. Melican will officiate. Burial will be in Forest Hill Cemetery, Houghton.

Divorce Granted Mrs. Henry Ford

FAIRFIELD, Idaho (AP)—A routine, 20-minute court-hearing Wednesday dissolved the marriage of auto maker Henry Ford II and his wife, Anne—a marriage that was launched in glittering style 23 years ago.

The uncontested divorce was granted Mrs. Ford on grounds of mental cruelty by Judge Charles Scoggin. A year ago he issued a divorce decree for Margaretta Fidler Murphy, who later became the wife of New York Gov. Nelson A. Rockefeller.

Mrs. Ford, 44, was awarded custody of the couple's only minor child, Edsel Bryant Ford, 14, with visitation right by his father. The couple has two other children, Charlotte, 22, and Anne, 21.

KNIFE SLAYINGS of three men he didn't even know brought the arrest of Clarence Hardy, 33, at Oakland, Calif. Police said he confessed to an "uncontrollable urge to kill." The hunting knife, held by a police officer, was taken from Hardy. (AP Wirephoto)

January Milk Production Dips

Strongest trend in the January milk market in the Upper Peninsula for producers was an increase over January, 1963. The U.S. Department of Agriculture reports. The blend (average) price was \$3.786 per hundredweight compared with \$3.741 a year ago.

Total production was down, from 19,092,000 pounds to 10,033,169 but Class I (drinking) milk was 7.4 million lbs. to 7.6 million lbs. or 75.7 pct compared with 73.7 of the total production. Producer milk at test was worth \$394,729, off over \$2,000. Average 7 day income per producer was \$158.32 compared with \$142.04.

The number of tank producers dropped from 624 to 563.

A two-cent piece was minted by the United States from 1964 to 1873.

Snow Belt Hits Across Seven Midwest States

By The Associated Press
Snow, sleet and rain covered broad areas of the nation today, with heavy snow across many sections of the Midwest.

A snowstorm that swept across seven Midwestern states, with amounts ranging up to a half foot in some areas, headed into the Ohio Valley and interior sections of the Northeast.

The snow belt covered areas in Iowa, Missouri, Illinois, Indiana, Michigan, Wisconsin and Ohio. Driving conditions were hazardous in many areas. At least four persons were killed in traffic accidents on ice-slicked highways in northern Illinois.

Women Clerks Balk Burglar

PAINESVILLE, Ohio (AP)—Two women clerks at the J.J. Newberry department store stood their ground Wednesday when a man with a gun in one hand and a blackjack in the other burst into their second-floor office.

The gunman demanded the combination of the safe from Tony Plumstead, 19, and Virginia Williamson, 40.

The clerks said they didn't know the combination. When the gunman ordered the women to lie down on the floor, Mrs. Williamson got mad and said she "certainly would do nothing of the kind."

"I guess that kind of stunned him," Miss Plumstead explained afterward. "He just turned and walked out of the office."

Miss Plumstead said the would-be robber missed getting \$1,600 in the office and an undisclosed sum in the safe — which was unlocked.

Homecoming Festivities Held At Nahma

NAHMA — With the theme, "Winter Wonderland," complete with a snowman, flower-trimmed old fashioned cutter, Christmas trees and snow, Linda Groleau and Don Johnson were crowned queen and king at the Nahma homecoming dance held Friday evening, Feb. 7, at the Nahma Club.

The crowns were carried by Mary Ellen Bennette and Wayne Gouin, members of the kindergarten class, and the reigning couple Rose Ann Sargent and Pat Groleau placed the crowns on the new king and queen. The court included Marcella Johnson, Lois Cayemberg, Jane Hardwick, Ann Turek, Gerald Hardwick, Terry Larschied, Arlen Pomeroy and Bill Labadie.

Superintendent Frank Stupak was master of ceremonies and music was furnished by Groleau's orchestra.

During the intermission of the Nahma - Cooks basketball game the parents of the Nahma varsity cheerleaders and players were introduced and presented with corsages.

Sales And Use Taxes On Cars Up 10 Million

LANSING (AP) — State income from sales and use taxes from car sales last year topped the 1962 collection by nearly \$10 million.

Secy. of State James Hare said his office handled about 1.5 million vehicle transactions, an increase of more than 127,000 over 1962.

The total take last year from such transactions was \$73.3 million in sales taxes and \$64.8 million in use taxes.

Smith Brothers Have New Boss

NEW YORK (AP)—There's a new boss behind the old faces of the bearded Smith Brothers on the cough drop box.

Smith Brothers, Inc., of Poughkeepsie, N.Y., merged into the Warner-Lambert Pharmaceutical Co. of Morris Plains, N.J., Wednesday in a stock transfer transaction.

The pictures of William and Andrew Smith have appeared on the cough drop boxes as a trademark for 117 years. William acquired the nickname "Trade" and Andrew "Mark" because the words were printed under their pictures.

Thank You Folks

The excellent turnout we had at the Presque Isle Station in Marquette during the past week-end was most gratifying.

We take this opportunity to thank our many friends from Escanaba, Rapid River, Iron River, Munising, Marquette, Ishpeming, Negaunee, Gwinn, the Copper Country, Ontonagon, L'Anse and surrounding areas for helping us dedicate our new No. 3 Generating Unit by attending the "Open House" at the plant. It was a real pleasure having you with us.

Transportation Study

The report of UPCAP's Transportation Committee on a study of the Upper Peninsula's competitive position in transportation brings some good news, but also strongly suggests that UPCAP should have as a high priority goal the seeking of solutions to some of the area's problems of transportation.

The report of the Transportation Committee was made by Robert Nathan Associates' technical assistance staff supplied to UPCAP by the Area Redevelopment Administration.

Wood industry is the Peninsula's largest industrial complex and the Nathan economists have a good word for it. They say "The cost of shipping wood products such as lumber, wood pulp, printing paper, paper board, wallboard and plywood to the major Midwestern markets of Chicago, Milwaukee, Detroit and Minneapolis is substantially less than from competitive resource areas such as the south, New England and the Northwest."

"Aside from differences related to minimum weights and other rate factors, the cost of shipping these products from the U.P. to these markets is about half of the cost from other regions."

This is the proper focus on an important economic factor about which there's been much misinformation. "The U.P. is too far from markets for manufacture," has become almost a catchphrase. It's not true of wood industry, says the study.

The study comes at a time when economic planners of the Upper Peninsula should be much concerned with preservation of the area's system of public transportation. It should be easier to keep what is necessary for the Peninsula's new growth era than to rebuild anew after the present system has eroded away beyond the point of adequacy.

Actually, says the study, the U.P. "seems to have a perfectly adequate rail system for the volume of traffic now in existence . . . and there is unused capacity available to meet any growth which will occur over the next five years."

But there are changes in transportation shaping in the Upper Peninsula which can cast long shadows on the U.P.'s ability to compete industrially through its transportation system.

One of these is the current application of the Soo Line Railroad to the Interstate Commerce Commission for trackage rights over the Lake Superior & Ishpeming Railroad from Marquette to Eben Junction to give it a shorter haul from the Marquette Range to Chicago, or to Lake Michigan ports. This seemingly innocuous little exchange of facilities between the two roads has the other railroads serving the U.P. straining at the leash in their hurry to oppose the proposal at an ICC hearing in Marquette March 16-20.

They will say that in an already lean market, their scanty revenues and growth prospects will be seriously injured by the implications of the trackage rights to the Soo. Appraisal of the effect of this proposal on the public interest would be a valuable service from UPCAP but there is so little time before hearing that the issue will have to rest upon the contest between the competing railroads and such pleading as may be done by affected communities.

The last time around when the LS&I and the Soo proposed a joint venture to move ore to Little Bay de Noc the ICC said no, that the North Western was already serving the area and that there wasn't enough economic blood to nourish two systems.

Things haven't changed much since then, the Milwaukee Road, the North Western and the Manistique & Lake Superior (a subsidiary of the Ann Arbor) are expected to plead in opposition to the Soo's proposal. Communities may be tempted to say "Let the railroads fight and may the best man win," but it's not as simple as that because rail passenger service and other transportation factors ride on a profitable freight operation.

That the U.P. must play its cards carefully in this game of transportation regulation to keep as husky a system as possible for economic growth is clear in the area's standing in the Western District of U.S. railroads. The U.P. is in the 25-state district bounded on the east by Lake Michigan and the Mississippi and running west to the Pacific.

The U.P. ranks 24th among the 25 states in tons of freight per mile of railroad track, with 842,000 compared with 2,277,000 for the Western District.

It is 25th among 25 in number of passengers per mile of track, with 17,000 compared with the district's 175,000. Its passenger income per mile is \$458 compared with the district's \$1,481 and its income per mile \$12,000 compared with \$30,000.

Fake

Don Donnelly, a well-known Washington farm reporter read a report from the U.S. Department of Agriculture that there are now only 3,481,000 farms in this country, three per cent fewer than a year ago and only a little more than half of what it was back in 1925.

Next, Donnelly read in President Johnson's economic report that net income per farm had risen 12 per cent in the past three years.

The confusion came in the statistics on "rural poverty" assembled by the U.S. Department of Agriculture, as ammunition for the President's anti-poverty war.

The Department said that there are 16 million families living in poverty in rural America, and of these 16 million, one-third are farmers. That's where the fun began. Donnelly found that one-third of 16 million is 5,333,000.

This, happens to be 1,852,000 more "poor" farm families on farms than there are farms, according to the Agricultural Department's own figures.

Donnelly asks, "If there are more poverty-stricken farm families than the total number of farms plus the total number of hired hands, who are they?"

"And, what about that net increase in farm income per farm?"

Saved

The sea otter, once on the razor's edge of extinction, is thriving again.

Down to a population measured in the hundreds 50 years ago, the otters now number around 40,000, according to U. S. Fish and Wildlife Service estimates. The frolicsome animals are found all the way from California to the Aleutian and Kurile Islands.

Trouble for the otter began in the 18th century when men discovered that it wore a soft-deep pelt.

In one year, 50,000 otters were killed for their skins, for which Russian czars and nobles and Chinese mandarins paid as much as \$2,500 apiece.

In 1911, almost too late, the animal was given protection by an international treaty. It has taken from them until now for it to increase to a point where it can be pronounced safe.

Civilization Comes to the Jungle

Washington Comment

By BRUCE BLOSSAT

WASHINGTON — (NEA) — The people in many of America's cities are being treated these days to unaccustomed attentions from their state legislatures. The natural query:

Does legislative reapportionment, done under spur of the Supreme Court's famous Tennessee decision in 1962, have anything to do with it?

The answer has to be that, in the strictest sense, the link between more representative legislatures and the record 1963 volume of urban legislation is unprovable.

Yet it is a fair presumption that there is at least some connection in some places.

The Advisory Commission on Intergovernmental Relations, summarizing 1963 action by 33 states in the urban field observes:

"Although reapportionment agitation and public criticism of legislatures for previous inattention to these problems may have been responsible to some extent, it would appear the primary factor was in the growth of the problems themselves, and the pleas of local government officials for state action."

Charles S. Rhyne, attorney for the complainant in the Tennessee case, suggests that some legislatures still under rural domination may be acting on urban matters to ease pressures for reapportionment. Altogether, reapportionment suits have now been filed in some 40 states.

In roughly 20 states, some measure of reapportionment actually has occurred. Generally, court action or the threat of it prodded legislators into motion.

From this list, 14—Maryland, West Virginia, Tennessee, North Carolina, Georgia, Florida, Minnesota, North Dakota, Nebraska, Kansas, Oklahoma,

Wyoming, Idaho and Montana —are among the 33 which plunged more heavily than ever before into the urban field.

Of the remaining 19 among these 33, just four states have escaped some kind of state or federal reapportionment suit.

The chief categories of state action last year in urban matters:

● Enabling legislation dealing with mass transportation (9 states).

● Laws to facilitate the acquiring of "open spaces" in and near metropolitan areas (4 states).

● Authorization for local units, especially in urban sectors, to contract with one another for performance of government functions (9 states, including 3 in which existing power was broadened).

● Creation of metropolitan planning commissions (6 states).

● Authority for cities or counties to exercise planning and zoning regulation over urban fringe areas, to curb sprawl (7 states).

● Strengthening of laws governing establishment of new municipalities (8 states).

● More liberal community annexation laws (6 states).

● Power to cities or counties to use certain optional forms of government, whichever they deem most suitable (7 states).

● Authority to local governments to co-operate in collection of local taxes (2 states).

This is the kind of action on the urban front which reapportionment was supposed to generate. A direct tie may not be provable, but the big stir in state and federal courts hardly encourages state legislators to sit around waiting for the ax to strike.

The record is plain enough: they are indeed moving.

Questions And Answers

Q—In English history, what was the Rump Parliament?

A—In 1643, Capt. Thomas Pride arrested or excluded all Presbyterian and Royalist members of the British House of Commons prior to the trial of King Charles I. The remaining members were called the Rump Parliament.

Q—Which is the smallest virus?

A—That of foot and mouth disease, approximately four ten-millionths of an inch.

Q—How many ships constituted the nucleus of Uncle Sam's Navy?

A—Thirteen ships, authorized by the Continental Congress in 1775.

Q—When did modern man begin to appear in appreciable numbers in Europe?

A—Between 25,000 and 30,000 years ago, according to present evidence.

Q—What is the main use for salt?

A—Its largest use is in the preparation of chemicals, accounting for about 70 per cent usage in the United States.

Memory Lane

By J. R. LOWELL
Ten Years Ago

Patricia "Pat" Bowman, 12, daughter of Mr. and Mrs. Harold Bowman, of Gulliver, is pictured in today's Daily Press holding a 16-pound northern pike she caught while fishing in the family's fish house on Gulliver lake a few days ago. The fish was 40 inches long.

A building housing 14 pigs on the William Coy farm near Gladstone, was destroyed by fire yesterday and all of the animals were burned to death. Firemen were called to the scene but the water supply was inadequate to meet the situation.

The Escanaba Board of Education has instructed school bus drivers not to cross the bridge on County Road 420 that spans the Escanaba river. The bridge at present is considered unsafe, but steps will soon be taken to strengthen the structure.

Twenty Years Ago

LeRoy Erickson, of Escanaba and Miss Betty Shannon, of Belfast, Ireland, were married in Belfast on Jan. 12.

Several cases of scarlet fever have broken out in Manistique and nearby areas this past week.

The Rev. and Mrs. Harold Martinson arrived in Manistique yesterday from Minneapolis. Mr. Martinson will assume the pastorate of Bethel Baptist church.

Thirty Years Ago

Donald Cook, of Escanaba, student of the University of Michigan, has been elected president of the Sigma chapter of the Theta Zeta fraternity. Donald is a graduate of the

University, and is taking post graduate work at present.

Three carloads of wheat, 1,800 bushels in all, were received in Manistique yesterday and will be used for livestock feed. The wheat is surplus wheat and was obtained through the efforts of J. G. Wells, county agricultural agent.

Dr. Karl Cristofferson, Blaney Park ornithologist, received a strange telegram a few days ago, it stated: "Am sending you Old Squaw," signed M. J. Magee, Sault Ste. Marie. The doctor was not at all startled or puzzled. The "Old Squaw" was a somewhat rare species of duck and it was a male duck at that.

Correction

The Press regrets an erroneous report that C. J. Burns, Delta Hotel proprietor, died as result of burns suffered in a fire in the hotel in the "30 Years Ago" file of Feb. 5. Mr. Burns of the Delta died in the 1940s in a Chicago hospital of a heart ailment.

So They Say

We need it (pending \$11.5 billion tax cut) urgently. We need it now. The nation is looking to the Congress for rapid final passage.—President Johnson.

Like any vehicle which tries to move two directions at the same time, the place that this administration's present approach will get us is exactly nowhere except into trouble.—Rep. Robert Taft Jr., R-Ohio.

Letters To The Press

Contributions are welcome. They must be limited to 350 words, and signed with the name, address and phone number of the writer, but the name will be withheld on request.

CIVIL SERVICE

The "stumbling blocks" in the civil service refrain used in your January 25 editorial on Conservation reform are a fiction. (The editorial suggested they are a possible impediment to Conservation Department reform as recommended by a Governor's study.)

When I first came to Michigan in 1960, long before the Conservation Study Commission was established, I first heard this reference and I made a point of running it down. This type of statement emanated from some persons within and others outside of the Conservation Department who were attempting to explain away public criticism.

The only "stumbling blocks" we place on the administrators of the conservation program are requirements that people appointed or promoted must qualify in competitive examination and that demotions and dismissals be based on sound reasons.

I met personally with representatives on the Study Committee to discuss the matter of reorganization and we have approved certain changes asked by the Department to comply with the committee's recommendations.

Resort Liquor Changes Urged

LANSING (AP) — A bi-partisan team of senators from popular resort regions have launched a campaign to lower restrictions on liquor licenses in the interest of attracting tourists.

They introduced a bill Tuesday to give the Liquor Control Commission discretion to issue licenses "in resort areas... without regard to any limitations because of population."

The bill also would allow "resort licenses" to enterprises "whose business and operation... is designed to attract and accommodate tourists and visitors to the resort area and whose primary purpose is not for the sale of alcoholic beverages."

The sponsors are Sens. Harold Hughes, R-Clare, Thomas Schweigert, R-Petoskey, Kent Lundgren, R-Menominee, Philip Rahol, D-Iron Mountain, Charles McManiman, D-Houghton and Clyde Geerlings, R-Holland.

The same group of senators, with the exception of Geerlings, also introduced Tuesday a bill to raise from \$30,000 to \$50,000 the maximum appropriation for each of four tourist associations: Upper Michigan, Western Michigan, Eastern Michigan and Southeastern Michigan.

Joins Tech

HOUGHTON—Victor N. Toivonen has joined the staff of Michigan Tech as assistant coordinator of technical education in the Division of Continuing Education, according to G. Ralph Noble, director. Toivonen, a native of Baltic, is a graduate of Iron River High School and received his B.A. degree in industrial arts from Michigan State University in 1951. He has just completed work for his M.A. degree in counseling and guidance at Michigan State.

National Forest Timber Sale

RAPID RIVER RANGER DISTRICT HARVEST AREA

Sealed bids will be received by the Forest Supervisor, U. S. Forest Service, Escanaba, Michigan, up to 2:00 P.M. (EST), March 17, 1964 and will be opened immediately thereafter for all live timber marked or designated for cutting and all merchantable dead timber located on an area of about 188 acres in Sections 4, 5, 8, 9, 16, 17, & 18, Township 42 North, Range 20 West, Michigan Meridian, Hiawatha National Forest. No bid less than the minimum rates shown below for each species and product will be considered. The estimated volumes and minimum rates are: 129 cords Balsam fir pulpwood at \$1.60 per rough cord; 33 cords Spruce pulpwood at \$3.45 per rough cord; 424 cords Paper Birch and Aspen pulpwood at \$0.55 per rough cord; 231 cords Hemlock and White Pine Pulpwood at \$0.95 per rough cord; 39 cords Cedar at \$1.90 per rough cord (of this 39 cords, 75% are posts); 23 MBM Yellow Birch Sawtimber at \$6.70 per MBM; 17 MBM Maple Sawtimber at \$5.10 per MBM (of this 65% is Sugar Maple and 35% is Red Maple); 42 MBM Paper Birch Sawtimber at \$8.70 per MBM. The above rates include deposit for sale area betterment. To log the area, the purchaser will be required to develop 1.77 miles of L. U. Road #2427. The un-amortized estimated cost is \$1890.20. The stumpage rate payable for each species will be increased by the amortization rate in effect for that species when the unamortized estimated cost of the main haul roads has been amortized by timber sale. The amortization rates are: Balsam pulpwood \$2.60 per cord; Spruce pulpwood \$5.89 per cord; Paper Birch & Aspen pulpwood \$0.11 per cord; Hemlock & White Pine pulpwood \$1.13 per cord; Cedar posts, & tie cuts \$2.18 per cord; Yellow Birch Sawtimber \$8.92 per MBM; Maple Sawtimber \$5.04 per MBM; Paper Birch Sawtimber \$16.15 per MBM. Amortization of main haul road costs is computed on 100 percent of the estimated timber volume. A deposit of \$200.00 in the form of a certified check, bank draft, cashier's check, or money order must accompany each bid to be applied on the purchase price, refunded or retained in part as liquidated damages according to conditions of sale. Bids submitted without the above form of deposit will require rejection of the bid as unresponsive. A bond of \$2000.00 will be required. The right to reject any and all bids is reserved. Before bids are submitted full information concerning the timber, the conditions of sale, and the submission of bids should be obtained from the District Ranger, U. S. Forest Service, Rapid River, Michigan, or from the Forest Supervisor, U. S. Forest Service, Escanaba, Michigan.

Joint Concert Sunday Night At Stephenson

STEPHENSON — Carney-Stephenson combined concert will be held Sunday, Feb. 16, at 2:30 p.m. at the Stephenson High School gym.

Carney will open the program with "Bandology" march by Eric Osterling, followed by "Sonatina for Band" by Frank Erickson, and Rogers and Ham-

merstein's "South Pacific."

Stephenson will continue the program with Erick Osterling's "Charter Oak" march and Clare E. Grundman's "Two Moods." "The Phantom Regiment" by LeRoy Anderson will close the first part of the program.

After a short intermission the combined band, under the direction of John Anderson, will play "Proud Heritage" by William P. Latham and Richard Wagner's "Elsa's Procession to the Cathedral" trans-

lated by Lucien Cailliet. Under the baton of Charles Prassetto the bands will continue with the clarinet quartet called "The Four Woodsmen" by Clair W. Johnson featuring Robert Jean, Brian Forgetto of Carney and Maxine Manacher and Linda Johnson of Stephenson. Highlights from "My Fair Lady" by Lerner-Lowe follow the clarinet quartet.

Anderson will direct "Short Classics For Band" arranged by James R. Gillette and Harold Walteo's "Bossa Nova".

Prassetto returns to direct "Variation Overture" by Clifton Williams and to close the program with E. E. Bagley's, "National Emblem."

There will be no admission charged but a free will donation will be taken after the program.

Apostle spoons were common baptismal gifts during the 15th and 16th centuries, according to the Encyclopaedia Britannica.

Seney

Lutheran Aid

The Lutheran Aid met at the home of Mrs. Walter Niemi. A meeting of Sunday School teachers preceded the general meeting. A birthday cake centered the lunch table, honoring Mrs. Clarence Wiertella.

Mr. and Mrs. John Ketola of Milan are the parents of a daughter born Feb. 8.

Mr. and Mrs. Leo Kaliszewski and Carol went to Detroit

to serve as sponsors at the christening of a grandchild.

Mr. and Mrs. Clarence Wiertella are moving to Newberry where he will be in charge of the Soo Junction section.

Mr. and Mrs. William Shipley of Shingleton were guests at the Maxson home.

Mr. and Mrs. Les Walstrom and daughter, Beverly, returned from Grand Rapids where the latter was a patient at Ferguson hospital.

Mrs. Clara Boonenberg was hostess to Seney Circle of St. Theresa's Church at her home.

Isabella

Bunco Club Meets

The Twelve-Belles Bunco Club met Tuesday afternoon at the home of Mrs. Henry Turan. Prizes in games were won by Mrs. Arthur Larscheid, Mrs. Herbert Blowers, Mrs. Raymond Nedeau and Mrs. William Donnell. The next meeting will be at the home of Mrs. Herbert Blowers.

The United States minted half-cent coins in 1792.

Animal Actor Patsy Nominees Announced

Hollywood — (Special) — Four dogs, three horses, a raven, jaguar, and chimpanzee are nominees for the 14th annual Patsy Awards as outstanding animal actors for '63. It was announced today by The American Humane Association.

In motion pictures, Patsy stands for "Picture Animals Top Star of the Year," while in television it's "Performing Animal Television Star of the Year."

Patsy Awards established in 1951 by The American Humane Association as the animal world's "Oscars" and "Emmys" for outstanding performances. Since 1940, the AHA Hollywood office has been responsible for the supervision of animal action under the Production Code of the Motion Picture Association of America.

Nominated for the motion picture Patsy were Tom Dooley hound dog in "Savage Sam," (Walt Disney Productions); Jim Jr., raven in "The Raven," (American International); Mickey O'Boyle, horse in "Wall of Noise," (Warner Bros.); Pluto, mixed breed dog, "My Six Loves," (Paramount); and Raunchy, jaguar, "Rampage," (Warner Bros.).

Television nominees are Black Hawk, horse in "Stoney Burke," (ABC-TV); Candy, chimpanzee in "Adventures of Dobie Gillis," (CBS-TV); Lassie, dog in "Lassie," (CBS-TV); Mister Ed, horse in "Mister Ed," (CBS-TV); and Tramp, dog in "My Three Sons," (ABC-TV).

Entertainment editors throughout the United States cast the final ballots and their selections will be announced April 4 in presentation ceremonies at Hollywood's RKO Pantages Theatre.

Of the nominees announced today, two were starred in Warner Bros. productions and one each in American International, Walt Disney, and Paramount films.

In television, CBS led with three nominees and ABC had two.

Last year's winners were Mister Ed and Big Red, Irish setter in Walt Disney's "Big Red."

MR. AND MRS. Arthur Beaudoin of Cornell announce the engagement of their daughter, Jeanette, to SP4 Ronald Gene Nicholson of Fort Wainwright, Fairbanks, Alaska, son of Mr. and Mrs. Stanley Nicholson, Powers. The bride-elect is a senior at Ferris State College, Big Rapids. The wedding is planned for April.

Powers-Spalding Community Chorus

The North Menominee County Community Chorus met at the Powers-Spalding High School Monday. A committee was chosen to prepare a program for spring. Committee members are Robert Hansen and Mesdames Theodore Dault, Wilfred Fleetwood, David Draz and Miss Carol Steele. Officers will be elected at the next meeting Monday, Feb. 17 at 7:45 p. m.

Social-Club

Card Party Sunday

Grace Lutheran Ladies Aid met at the home of Mrs. Walter Neimi of Seney and planned a public rummage and baked goods sale Saturday, Feb. 15, at the Laundromat at Germfask.

NEWBERRY

Mrs. Thomas A. Hughes

Geri Baker Is Bride In Madison Ceremony

A Valentine's Day motif was carried out in the wedding of Miss Geri Sue Baker and Thomas Allen Hughes, Saturday, Feb. 8 at 10 a. m. in Our Lady Queen of Peace Church in Madison, Wis.

The parents of the couple are Mr. and Mrs. Gerald Baker of Newberry, and Mr. and Mrs. D. G. Hughes of Madison.

The bride chose a floor length gown of white peau de soie with a square neckline and short sleeves. Re-embroidered alencon lace trimmed the waistline and a bouffant skirt featured panels of motifs of Venetian lace and sequins. A butterfly rose headdress surrounded in pearls held her tiered veil. She carried white and red roses with streamers of lily of the valley mounted on a large fur muff.

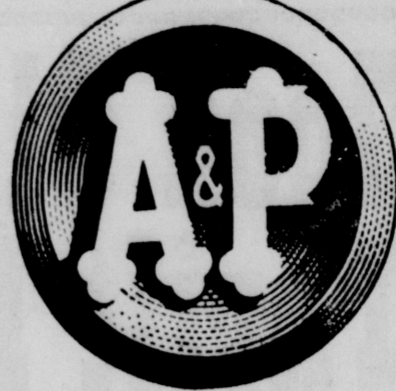

Miss Diane Hampton of Madison, Wis. was maid of honor. The two bridesmaids were Jackie Voll, Sauk City and Kaia Martinson of Madison. They were attired in floor length gowns of red velvet, with scoop necklines, long tapered sleeves and A-line skirts. They wore white fur pill boxes with red veils and carried red roses mounted on white fur muffs.

Gary Hughes, brother of the bridegroom, was best man. The groomsmen were Richard Baker of Detroit, brother of the bride and Peter Krug of Madison, Jack Watson and Uli-

Ann Landers

Dress Not Proper Present To Girl

Dear Ann Landers: Our 19-year-old son is giving his 18-year-old girl friend a dress for her birthday. The price, whether it is \$1.98 or \$49.88 is of little consequence. It is the principle to which I object. Both of these teen-agers are in college. They have been going steady for 15 months.

I have been assured by my son and by a friend who is the mother of two teenagers that I am hopelessly square. They promise me I will eat my words when I read your reply in the paper. I have the knife and fork ready. How about it?—FOGEY OF 40

Dear 40: Hand the silverware to them, Mother. A dress is not a proper gift from a teenage boy to his girl.

Ask your son if he would like his sweetheart to buy him a suit for his birthday. Same thing.

Dear Ann Landers: The letter signed "Unappreciated" made me fighting mad. I happen to be a wife who likes to sleep late, too. My husband is perfectly relaxed about fixing the kids breakfast. It's not that big a deal.

There's no doubt that he is an exceptional man. I hear my friends complaining about their husbands all the time and I can't find anything wrong with mine. I notice that the women who complain the loudest are the meticulous housekeepers and the spectacular cooks. If one of their husbands ever put a briefcase on the dining room table he'd get shot.

When my husband comes

home at night he can drop his socks and shoes wherever he wants to. I don't care if he tracks in a little snow or mud. The house is to live in and I want him to enjoy it.

Maybe we are slob, but we're happy slob and we get along just fine. So why don't people just mind their own business? — I APPRECIATE HIM

Dear Appreciate Him: Apparently you are doing a mighty good job of minding yours. Congratulations on what sounds like a mutually rewarding and durable relationship.

Dear Ann Landers: I don't want you to think I hate my mother because I really do love her very much. But when she treats my older sister like a queen and I get treated like Cinderella it makes me so unhappy I don't know what to do.

I am 14 and my sister Janice is 16. It all started in September when my sister Janice went into the 10th grade. Mother bought her loads of pretty clothes because she said it was important for Janice to look just right. I didn't get anything new. I got some of Janice's worn skirts and blouses—only because Janice's clothes closet was crowded, and she had to make room for the new things.

Mom drives Janice everywhere she wants to go. When I ask Mom to drive me someplace she tells me to stay home and do my school work. I'd leave home if I knew where to go. Please tell me what to do. —BORN TOO LATE

Dear Born: It's always pain-

ful to feel that a parent is favoring a brother or a sister over you. Every child who ever grew up with a brother or sister has had this feeling at one time or another.

Try to be pleasant and uncomplaining. Fourteen is a horrible age for a girl who has a sister 16. The world will look brighter when you are 16 and she is 18.

Confidential to CLOSED MIND: Not only closed but nailed shut, my friend. I suggest you open it occasionally. Something of value may drop in.

Ann Landers' frank and informative new book, "Teen-Agers and Sex" (\$2.95), is now available at your book store.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper, enclosing a

Romney Submits Budget Detail Bills Monday

LANSING (AP)—Gov. George W. Romney said he would not submit to the legislature until Monday 14 bills necessary to bring his \$622.4 million budget to reality.

He had said earlier the bills would go in today, but this was before consideration of a new constitutional requirement that the capital outlay detailed proposals accompany the rest of the budget detail.

In the past year, the capital outlay line items for state government were submitted weeks later than the rest of the detailed budget.

Fasting Is Part Of Many Faiths

By TOM HOGE
Associated Press Writer

Cannon boom across the Moslem world Friday, ending the fast of Ramadan for the faithful pledged to forego food and drink from dawn till dusk for 30 days.

Lent, which for many Christians means abstinence from meat or other fare over a 40-weekday period, began Wednesday.

Since the dawn of time, fasting has been a keystone of most faiths and a dominant factor in many cultures. The motives might differ in various societies, but those who hungered were usually inspired by belief that self-denial brings divine reward.

In many faiths the principal fasts are undergone in hope of receiving divine forgiveness for sins. On Yom Kippur, most sacred of Hebrew holy days, Orthodox Jews still go without nourishment or even water for 24 hours.

Doorway To Visions

The origins of fasting are obscured by legend and folklore, but certain threads of reasoning ran through most ancient beliefs.

Stephenson PTA Meets Tuesday

STEPHENSON—The regular meeting of Stephenson PTA will be held in the high school music facility beginning promptly at 8 p.m. Tuesday, Feb. 18. The program for the evening will be a discussion of school dropouts. A comparison of national, state and local dropout rates will be made. Identification of the potential dropout, causes and all areas related to the problem will be covered. A group of educators representing elementary, secondary, administration and guidance will make up the panel. All parents, teachers and interested adults are encouraged to attend.

Rep. Griffin Will Run Again

WASHINGTON (AP) — Rep. Robert Griffin, R-Mich., announced he will seek reelection. There had been speculation he might run for the seat now held by Sen. Philip Hart, D-Mich.

In announcing his decision, Griffin said he wished to put an end to speculation that he might seek another office this year.

"It has been gratifying, of course, to receive expressions of support from every part of Michigan," he said.

"However, the overwhelming consensus in the 9th District is that I should run for re-election to the House. The people of my district have been very good to me, and I am going to follow their advice."

The seniority he has established in the House during four

Honor Roll Is Released

HERMANSVILLE — Honor roll students in Hermansville High School upper grades for the first semester are:

Seniors — Mary Antonetti, Dawn Hamacher, Gary Johnson, Judy Motto, Donna Peterson, Kathleen Schultz, Janice Sheski.

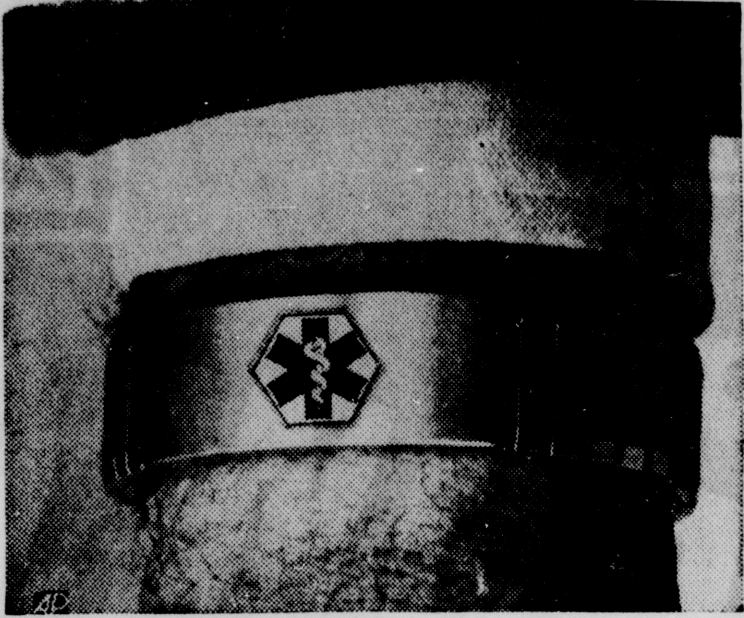

Juniors — Patricia Gribble, Linda Augustine, Kathe Peters, Gail Poquette.

Sophomores — Cheryl Farley, Margie Phillips, Margaret Poquette.

Freshmen — Cathy St. Juliana, Judy Johnson, Darlene Luft, Karen Lungenhausen, Leonard Welling, Mary Gordon.

two-year terms, Griffin said, is important to his district and to the state.

Griffin left by plane this morning for a round of Lincoln Day appearances in his district.

EMBLEM on this expansion bracelet has been approved by the American Medical Association as the universal warning symbol to be worn by persons afflicted with hidden medical conditions. The AMA directs that the emblem be on a device that is durable, nonallergic, waterproof and contains up-to-date medical information. The device, worn around the wrist or neck, alerts anyone giving first aid that the wearer must receive special care. This bracelet, which snaps open to reveal detailed medical history, is supplied to its members by the nonprofit American Medical Alarm Foundation in New York.

Double Overtime Plan Condemned

DETROIT (AP) — Auto manufacturers were reported "up in arms" over President Lyndon Johnson's proposal to create more jobs by forcing employers in selected industries to pay double overtime rates.

"Their indignation has reached the point where it may take the form of industry-wide protests," it was reported by Jack Crellin, industry writer for The Detroit News.

The protest, Crellin said, would be based on the grounds that the doubletime plan, if approved by Congress, could result in unwarranted government interference in the conduct of private business.

"Further," he wrote, "there is a feeling among many of the top industry labor relations people that the President's recommendations will put them at a distinct disadvantage at the bargaining table when negotiations open with the United Auto Workers in midsummer."

In his State of the Union message last month, President Johnson asked Congress to provide machinery whereby the present time-and-a-half rate for overtime work could be boosted to double time, in industries where such a move would increase employment.

Head Bump Fatal

HIGHLAND PARK (AP) — John Malcolm, 6, of Highland Park, died Wednesday of injuries received Monday when he struck his head against a gymnasium wall while playing basketball at Baroer Intermediate School.

Union Official Sent To Prison

GRAND RAPIDS (AP)—Kalamazoo union local official Albert L. White was sentenced Wednesday to two years in prison and two years' probation after a turnabout plea of guilty to violations of the Landrum-Griffin Labor Act.

White, 43, was secretary-treasurer of Local 640, International Hodcarriers Building & Common Laborers Union, AFL-CIO. He pleaded guilty Jan. 3 to a 15-count information but last Friday stood mute and a plea of innocent was ordered entered for him pending trial.

Free on bond, White reappeared Wednesday to re-enter a plea of guilty.

The prison term was handed down on the first count and sentence was suspended on the others.

U. S. Atty. George E. Hill said White admitted eight counts of embezzlement, six counts of making false entries and one count of destroying union records. The offenses involved \$3,904.32 in union local funds and took place between October, 19 and January, 1963, Hill said.

Expelled Ghana Professor Ill

LONDON (AP)—Dr. William B. Harvey, expelled from Ghana for alleged subversive activities, arrived in London Wednesday night.

The University of Michigan professor was immediately taken to the Tropical Diseases Hospital for treatment of hepatitis, a liver ailment. The hospital would not comment on his condition.

Harvey was the last of six western professors to be deported.

Charge d'Affaires Oliver Troxel led a delegation from the U.S. Embassy to see Harvey off. Vice Chancellor Conner Cruise O'Brien, faculty members and students from the University of Ghana were among other well-wishers at the airport.

"My exclusive interest in Ghana has been the university (of Ghana) and the welfare of the university will continue to be my interest," Harvey said.

President Kwame Nkrumah is chancellor of the university, where scholarship requirements are being revised to tighten control over students. Educators expressed belief the government purge is far from finished.

Newberry Rebekah Lodge Sponsoring Trip To Washington

The Newberry Rebekah Lodge is sponsoring an expense-paid trip to New York and the United Nations this year.

Selection of the student who will make the trip will be from the sophomore and junior classes of Newberry High School. Candidates will prepare ten minute speeches, using UN materials kits which have been placed in the school library.

A speech contest will be conducted and the six winners of this test will speak before the Rebekah Lodge, whose judges select the first place winner and alternate.

Selection of the winner will be made on the basis of speaking ability, character, scholarship, interest in community and world affairs and moral and spiritual motivation.

B&PW Meeting
The B&PW Club meeting held Tuesday featured guest hostesses were Carol Taylor, Dorothy Bays and Bernadine Neff. The dinner table arrangements were in green and gold, the club colors, green tapers, a statue of the club emblem and greenery in crystal holders.

Briefly Told
Dr. Claude A. Bosworth, vice president of Public Services Division of NMU at Marquette, talked at the United Brotherhood Service meeting at the First Methodist Church here Monday, Feb. 10 at 8 p. m.

Mrs. Louise McLean, vice president of the Tahquamenon General Hospital Auxiliary, will preside at the Feb. 18 meeting in the John Barrett Memorial Solarium at 2 p. m., in the absence of Mrs. Elizabeth Roat, president, who is vacationing in Florida.

Personals

Charles Michels returned Saturday from Rochester, Minn., where he went to bring Mr. and Mrs. Walter Duquette home, after the latter had been hospitalized at the Mayo Hospital for surgery.

Mrs. Kay Caudell is in Ann Arbor, where her daughter, Pamela underwent emergency surgery at the University Hospital Sunday night.

Boys Discover Dynamite, Save Train In Florida

CAPE KENNEDY, Fla. (AP)—An attempt to dynamite a freight train of the strike-plagued Florida East Coast Railway was foiled Wednesday night by four boys, authorities said.

The youths were walking along the tracks when they discovered 45 sticks of dynamite hooked to a rail. They dismantled the charge minutes before the south-bound train passed. The train whizzed by, unaware of its close call with disaster.

The identities of the boys were withheld.

Deputy Leif Larson of the Laval County sheriff's office said the dynamite was electrically wired to the track and would have exploded under the locomotive's wheels.

Sunday, an FEX freight train was derailed by dynamite north of Miami. The line is operating with nonunion labor and supervisory personnel.

Earlier this week, railroad union pickets appeared at Cape Kennedy and Merritt Island to protest movement of the line's freight trains into Merritt Island with construction materials.

All construction halted when workers refused to cross the picket lines, but was resumed after a temporary federal court injunction was issued Wednesday.

A hearing is scheduled at Orlando today on whether to extend the injunction.

Ernest Boes, 85, Called By Death

Ernest Boes, 85, died this morning at St. Francis Hospital. Mr. Boes was born Dec. 15, 1878 in Germany and had been a chief engineer for the I. Stephenson Co.

Survivors include his wife, two daughters, Mrs. Sam (Marbey) Petrie, Wells, and Mrs. Stan (Fern) Corneliuson, Ishpeming; and one son, Dale, Kalamazoo; two brothers, William, Green Bay and Herman, Sturgeon Bay and two sisters, Mrs. Augusta Conway, Chicago, and Mrs. John Magnin, Lena, Wis.

Friends may call at the Anderson Funeral Home after 4 p. m. Saturday. The body will be removed to the Salem Lutheran Church at 11:30 a. m. Sunday where services will be conducted at 1:30 p. m. with Rev. John Wendland officiating. Burial will be in Gardens of Rest Cemetery.

Isle Royale Herd Has 600 Moose

HOUGHTON—The Isle Royale research program in the nation's most isolated national park this winter has disclosed that the wolf and moose population is about the same as last year.

William Dumire, park naturalist, said some 600 moose roam the island along with 23 wolves. The wolves tend to keep down excessive moose numbers, he said.

Trains Delayed By Gnawing Mice

OSAKA, Japan (AP)—Fourteen passenger trains on Japan's busy Tokaido railroad were delayed from 5 to 40 minutes Wednesday by a malfunction in a railway signal.

Officials found that field mice had gnawed a cable, which got soaked by rain and short-circuited.

NEW IRON ORE pelletizing plant at the Groveland mine of Hanna Mining Co. has annual rated capacity of 1,250,000 tons of ¾-inch to ½-inch pellets, produced from jasper concentrate. Plant was designed and built by Dravo Corp. as a turn-key installation.

Menominee Range Ore Made More Marketable

More than 50 years after depletion of its deposits of high grade iron ore, the 110-year-old Menominee Range in the Upper Peninsula is once again yielding iron-rich blast furnace feed.

This time the feed is in the form of heat-hardened pellets, produced in a new pelletizing plant from concentrated jasper—a type of iron ore so low in iron content (approximately 28 per cent) that it once was considered not worth taking out of the ground.

The pellet plant, built by Dravo Corp., Pittsburgh, for the Hanna Mining Co., has a rated capacity of 1,250,000 tons of pellets per year. Construction of the turn-key installation was part of a major expansion program at Hanna's Groveland mine concentrating facilities near Iron Mountain. The concentrating plant, erected about four years ago, was increased in capacity from 700,000 tons to 1,500,000 tons a year.

The pelletizing plant utilizes continuous grate process to produce ¾-inch diameter pellets of more than 60 per cent iron content. The fully-hooded pelletizing grate, largest in the United States, is 9 feet 10½ inches wide and 223 feet 1½ inches long over 34 windboxes, with an effective hearth area of 2195 square feet. Drying, firing, and cooling functions are all carried out on this single piece of equipment.

Although simple in design, the machine provides the flexibility necessary to pelletize a concentrate with varying chemical characteristics. Basically a hematite (non-magnetic) the concentrate contains from 25 to 75 per cent magnetite (magnetic ore). It also contains lime, so that the finished pellets are partially fluxing.

These wide variations in the ore's hematite and magnetite content are readily accommodated by an automatic control system that adjusts feed rates, air volumes, and furnace temperatures to compensate for differences in the feed material.

No solid fuel is added to the green pellets, and all process heat is supplied by oil burners in the furnace covering the traveling grate. Seven process fans, some of which operate at temperatures as high as 800 degrees Fahrenheit, handle the process air requirements.

Low fuel costs are attributable to a unique method of recuperating hot gases from the cooling zone for use in pre-heating and firing the pellets.

Mrs. Molden Taken By Death

Gustaf Carl Segerstrom of Isabella died this morning at St. Francis Hospital in Escanaba where he had been a patient for the past two weeks. He was 66 years old.

Born in Isabella on Dec. 25, 1897, he was for a number of years employed as a carriage driver at Mackinac Island.

Surviving are one sister, Mrs. Esther Bonifas of Isabella, and one brother, Claus, of Cooks.

Friends may call at the Anderson Funeral Home beginning at 4 p. m. Friday.

The body will be removed to the Bethany Lutheran Church in Isabella at 1 p. m. Saturday and funeral services will be held there at 2 p. m. with the Rev. Ingemar Levine officiating. Burial will be in the Moss Lake Cemetery.

Senate Confirms New EMU Board

LANSING (AP)—The Senate confirmed Wednesday Gov. George W. Romney's appointment of eight persons to Eastern Michigan University's new Board of Control.

The board, created by the new Michigan Constitution, is the first independent policy-making panel for the school at Ypsilanti.

Board members include Edward M. McCormick of Monroe and Miss Virginia Allan of Wyandotte for terms through 1970; Dr. Martin O'Hara and J. Don Lawrence, both of Ypsilanti for terms through 1968; Charles Anspach of Mount Pleasant and O. William Hazel of Ann Arbor for terms through 1966, and Lawrence Husse of Ypsilanti and Dr. Mildred Smith of Flint for terms ending next Dec. 31.

Upper Peninsula Court District Merger Proposed

LANSING (AP)—Rep. Joseph Gillis, D-Detroit, today introduced a bill to consolidate the 12th and 32nd judicial districts, in the western end of the Upper Peninsula, in 1967.

"This would save the state the \$15,000 salary paid to a judge and the counties would save \$17,000 salary paid to a court reporter. The supplemental salary paid by the counties to the two judges amounts to \$9,000 which might be reduced for a single judge," Gillis said.

The enlarged 12th District would consist of Baraga, Houghton, Keweenaw, Ontonagon and Gogebic counties.

Gillis said the circuit caseload would be well within the capabilities of a single judge. In 1962, the two circuits handled 423 cases, which Gillis said is less than half the state average of 904 per judge.

Both incumbent judges, Leo Brennan and Robert Wright, are ineligible to seek re-election because of mandatory retirement under the new constitution, Gillis said.

Pray On Friday

LANSING (AP)—Valentine's Day will also be a day of prayer in Michigan, under a proclamation issued Wednesday by Gov. George W. Romney.

The proclamation of "World Day of Prayer in Michigan" urges all citizens to pray on Friday for "wisdom, courage and strength to face the profound concerns of our time."

Houdon's statue of George Washington in Richmond, Va., is the only existing one made from life.

Tag Game Ends In Hospital

GARDEN — Leo Bodette, 8, son of Mr. and Mrs. Bernard Odette, escaped serious injury when he was struck by a car here after school late Wednesday afternoon.

He had stayed to play basketball in the school gym after classes and was walking to the post office to meet his father for a ride home when enroute he began playing tag with a friend, Gary Short, on the road.

Gary ran across the road and Leo followed and ran into the path of a car driven by Barry Rochefort, 16, of Garden. Rochefort braked but the road was icy and the car struck the boy.

Leo said he hung onto the bumper of the car after slipping and was dragged a distance before losing consciousness. The car wheels didn't pass over the boy's body.

Leo's physician said he was bruised, but in good condition. X-ray examination was scheduled today and he was expected to be released from Schoolcraft Memorial Hospital, Manistique, today.

The father was leaving the post office at the time of the accident and witnessed it. He took his son to the hospital at Manistique.

Sheriff Cully Johnson said investigation indicated that the boy ran into the car and that no ticket was issued.

Draft Unlikely, Romney Thinks
SAGINAW (AP)—Gov. George W. Romney described remarks that he might be drafted as a Republican presidential candidate as "presumptuous, remote and unlikely" Wednesday night in an address to a Saginaw Lincoln Day dinner.

Romney told the overflow audience of 500 that his widely publicized statement that he would accept a draft was "misinterpreted" and added that prior to his election as governor he stated that he would not be a candidate for national office in 1964.

"I've kept that pledge up to now and I don't expect to change," he said. "I'd be more likely to die between now and November than be drafted."

Commenting on his future plans — including running for governor again — Romney said he "probably will have something to say about that in a few weeks."

In a speech focused generally on Michigan finances, Romney said national confidence and faith in Michigan have been restored because of the state's improved financial condition.

Bark River-Harris School Board Accepts Bus Bid

The regular meeting of the Bark River-Harris Board of Education was held Tuesday and the Board opened bids for a new 60 passenger school bus.

The bids were as follows: bus chassis — Town & Country Motors of Kingsford, \$3,097.40; Northern Motors, \$3,560.06; Coyne Chevrolet, \$3,709.68; Spalding Auto Sales, \$3,781.90; Escanaba Machine, \$3,838. The body bids were as follows: Superior Coach Sales, \$3,880; Wayne Body \$3,950.

Low bids were accepted in each case. Total price of the new bus will be \$6,747.40. The bus will be ordered for summer delivery.

Beginning this year, it is necessary for the Board of Education to appoint a board of canvassers for school elections. The new law provides for establishment of a four-member board of canvassers to certify results of school elections. Applications are available at the office of the superintendent of schools. Applicants must be qualified and registered electors of the school district. Applicants, after securing affidavits from the school office, must return them by 4 p. m., March 9.

Fishing License Exemption For Aged Opposed

Rep. Clifford Perras (R-Nadeau) is pushing for state legislation to exempt persons 65 and over from need for a fishing license or trout stamp, but he says this seemingly simple little courtesy is not so simple.

"I would appreciate your publishing in toto," said Perras "this analysis from the Michigan Department of Conservation."

The "toto" includes explanation that the Department did not propose the exemption and doesn't favor it because of the loss of revenue to the Game and Fish Protection Fund.

Licenses indicate the 9.2 per cent of all licensed fishermen are 65 or older. If they weren't required to buy licenses it would cost a loss of \$149,000 annually. If the senior citizens were exempted from hunt license need too the loss would be \$318,000 yearly.

These losses would cause a further loss of \$10,000 to \$20,000 annually in federal aids based on license fees.

Treloar Honored By Marquette C-C

MARQUETTE — W. H. Treloar, general manager of the Marquette Mining Journal, was awarded the Marquette Chamber of Commerce's Citizen Recognition Award at the annual dinner meeting of the Chamber Tuesday, by President Robert M. Ling.

Treloar, a newspaperman since 1925, is president of the Northern Michigan Foundation, to raise a million dollars for Northern Michigan University's "Goals For Greatness" fund, a founder of Operation Action-U.P.; a state leader of the United Fund, and active in many civic organizations.

Channing And Perkins Band Concert Feb. 19

PERKINS — The Channing and the Perkins School Bands will combine to present a concert at Perkins High School Wednesday, Feb. 19, at 7:30 p. m. The mothers of the Perkins Band members will serve a dinner for both bands at the high school from 5 to 6 p. m. preceding the concert.

Both bands will be under the direction of John Violette. Channing band members are: cornets, Mary Ellen DalSanto, Jeff Walling, Judy Carey, Diane Daniels, Paul Tobin, Carol Roell, Christine VanOss, Todd Lindeman; saxophones, Patty Roell, Kathy Roell, Gail Whitenack, Diana Bates; flutes, Barbara McCole, JoAnne Ferguson; horns, Henry Wiens, Peter Tobin, Tina Taronatti, clarinets, Judy McCole, Evelyn Race, Marlene Steele, Connie VanOss, Nancy Stevens, Barbara VanOss, Rita Lindeman, Toni Lee DalSanto, Cindy Olson, Mary Beth LaPointe; bass horn, Charles Halverson, Percy Halverson; trombone, Craig Lindeman; baritone, Gary Whitenack, Karen Whitenack; percussion, Ruth Blockland, Patsy Carey, Jeanie VanOss, Barbara Berg, Estelle Clement, Linda Schulz.

Perkins Band members: cornets, Gary Robbins, Wayne Sharkey, David VanDamme, Robert VanDamme, Allen Reese; saxophones, Susan Demeuse, Linda Fuhrman, Myra Miljuro, Diane Falkies, Sharon Depuydt, Charlene Lauscher; flute, Joan Jodocy; horns, Julie Demeuse, Gale Lauscher, Janice Lauscher; clarinets, Carol LaChance, Donald Bannister, Kenneth Simonsen, Cheryl Nelson; bass horn, Jean Maki; trombone, Stephen Head; baritone, Stephen Simonsen, Gary Simonsen; percussion, Bonnie Starrine, Jean Desotelle, Tony Robbins, James Gudwer and Patti Royer.

Tag Game Ends In Hospital

GARDEN — Leo Bodette, 8, son of Mr. and Mrs. Bernard Odette, escaped serious injury when he was struck by a car here after school late Wednesday afternoon.

He had stayed to play basketball in the school gym after classes and was walking to the post office to meet his father for a ride home when enroute he began playing tag with a friend, Gary Short, on the road.

Gary ran across the road and Leo followed and ran into the path of a car driven by Barry Rochefort, 16, of Garden. Rochefort braked but the road was icy and the car struck the boy.

Leo said he hung onto the bumper of the car after slipping and was dragged a distance before losing consciousness. The car wheels didn't pass over the boy's body.

Leo's physician said he was bruised, but in good condition. X-ray examination was scheduled today and he was expected to be released from Schoolcraft Memorial Hospital, Manistique, today.

The father was leaving the post office at the time of the accident and witnessed it. He took his son to the hospital at Manistique.

Sheriff Cully Johnson said investigation indicated that the boy ran into the car and that no ticket was issued.

Handicraft Units At Ensign Busy With Projects

ENSIGN — The Ensigner 4-H Club has two handicraft units under the leadership of Stanley Dominic and Thomas Safford.

Fifteen boys are enrolled: Mike Rasmusson, Mike Johnson, Charles Peterson, Daryl Lindquist, Gary Gustafson, Donald Dominic and Joel Hansen, members of Dominic's group; Mark Nelson, Kerry Sunberg, Tom, Klint and Dan Safford, Charles Bowen, Charles and Mark Hansen, Safford's unit.

The boys meet weekly at the leader's home and work on their projects. The woodwork will be completed and displayed at the local achievement show March 31.

Armored Cars Serving Banks

Periodic armored car service for a number of member banks of the Federal Reserve Bank of Minneapolis has been inaugurated in the Upper Peninsula, it is reported by M. E. Lysen, assistant vice president of the Federal Reserve Bank of Minneapolis.

"Although this is a new service for our member banks in the Upper Peninsula of Michigan, we initially inaugurated such service in 1958 for some of our member banks in Minnesota and Wisconsin," he reported. "We now provide armored car service for some of our member banks in all states in the Ninth Federal Reserve District."

Post office officials have requested the cooperation of the Federal Reserve Banks in reducing to a minimum money shipments forwarded by registered mail, he added.

"The Federal Reserve Banks are arranging to the extent feasible to provide currency and coin service by armored cars for its member banks," Lysen announced. "Such service reduces to a minimum the risks incident to the transfer of cash between member banks and the Federal Reserve Bank."

Treloar Honored By Marquette C-C

MARQUETTE — W. H. Treloar, general manager of the Marquette Mining Journal, was awarded the Marquette Chamber of Commerce's Citizen Recognition Award at the annual dinner meeting of the Chamber Tuesday, by President Robert M. Ling.

Treloar, a newspaperman since 1925, is president of the Northern Michigan Foundation, to raise a million dollars for Northern Michigan University's "Goals For Greatness" fund, a founder of Operation Action-U.P.; a state leader of the United Fund, and active in many civic organizations.

Shriver Heads Poverty Drive

WASHINGTON (AP)—In the news from Washington: POVERTY DRIVE: In a letter President Johnson has given Sargent Shriver his orders for mounting the administration's campaign against poverty.

"You will direct the activities of all executive departments and agencies involved in the program against poverty," said the President, who also expressed his gratitude to Shriver for agreeing to take on the job.

Shriver also will carry on as Peace Corps director.

WATER: Cubans temporarily piped water to the U.S. naval base at Guantanamo Tuesday, but the Navy said the base kept the valves closed at its end, holding to the U.S. decision not to accept any more water from the Castro regime.

Prime Minister Castro, who ordered the cut off of fresh water supplies, had said he would permit the water to flow for an hour a day because of the women, children and civilians on the base.

DOLLAR FLOW: The United States made headway last year — particularly in the final six months — in its anxious efforts to ease the balance of payments problem.

Since 1950, more dollars have been flowing abroad than returning, creating a drain on the U.S. gold supply.

In 1962 the U.S. balance of payments was \$3.6 billion in the red. By last spring it reached an alarming annual rate of \$5.2 billion.

But figures issued by the Commerce Department Wednesday showed that the deficit had been cut to about \$3 billion by year's end and was running at an annual rate of a little more than \$1.5 billion in the final six months of 1963.

Soviets Propose All Nations Slash Military Spending

GENEVA (AP)—The Soviet Union proposed today that all nations agree on a simultaneous slash of 10 to 15 per cent in their military expenditure.

Soviet delegate Semyon K. Tsarapkin made the proposal in the 17-nation disarmament conference.

He said the conference should take it up as the top priority item, leaving all other matters until later.

He rejected a Brazilian proposal for establishment of a conference subcommittee to consider an agreement for simultaneous and equal cuts in military budgets.

NEW PEAK: The crew of a U.S. Navy plane has discovered a new mountain range in Antarctica and dropped the American flag on its tallest peak.

The Navy announced the discovery Wednesday, saying the plane had located the 4,000 to 6,000-foot range three days ago in an uncharted area of Queen Maud Land. It was described as an extension of the Shackleton Range.

Briefly Told

Iron Ore Handlers Lodge
400 will meet at 7 p. m. Friday at the Croatian Hall.

An immunization clinic will be held Friday from 2 to 4 p. m. at the Delta County Building.

SPEBSQSA singers are reminded of the change of meeting place to Andy's Clubrooms, Park River this evening at 8. Persons needing transportation are asked to meet at Carpenters' Hall at 7:30.

The Holy Name High School Boosters Club will hold a short business meeting at the high school at 8 p. m. today. In observance of the Lenten season, the meeting will be followed immediately by Sportsman's Holy Hour, conducted by Father Shiroda of St. Thomas the Apostle Church. All men interested in sports are invited to attend.

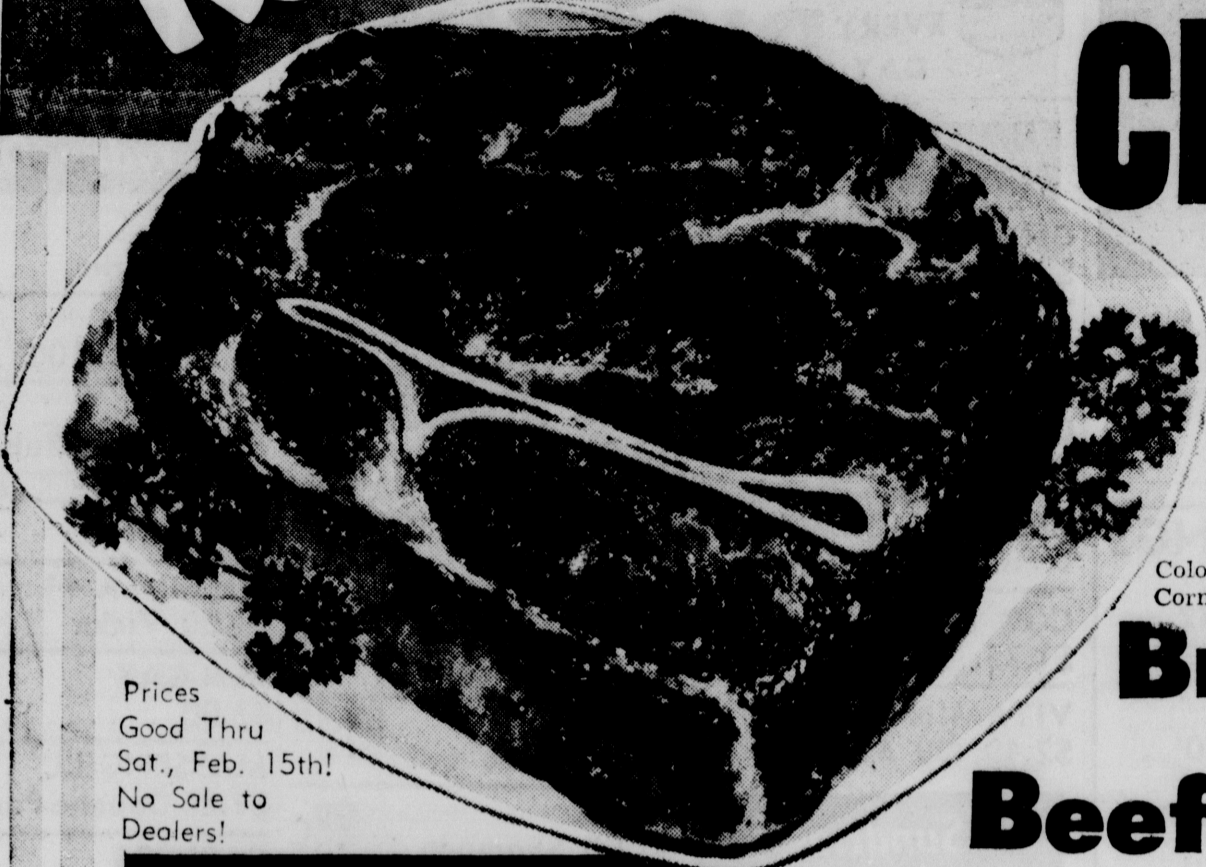

Members of the Silver Spur Saddle Club will meet at the Moser Community Hall near Danforth for a tack-cleaning bee on Sunday afternoon. Members will bring saddles, bridles and other equipment to be cleaned, oiled and repaired, in preparation for next summer's riding. Coffee will be furnished by the club and members will bring their own nose-bag lunch.

Waiving examination in Menominee justice court on Wednesday. Donald G. Morris Jr., 20, of Durand, Mich., was held for trial in Menominee County Circuit Court on charges of armed robbery. The charge stemmed from Morris' alleged robbery of a grocery at Cunard and the striking of the proprietor, Mrs. Isabel Hamacher Tuesday evening. Morris was unable to furnish \$2,000 bond and is held in the Menominee jail.

Guantanamo Base To Ban Families

WASHINGTON (AP) — The Defense Department announced here that no more families—either of military people or civilian employees—will be sent to Guantanamo, and dependents now there will be brought home gradually over the next two years.

Asst. Secretary of Defense Arthur Sylvester announced this action "as a further step in the process of making the Guantanamo Naval Base entirely self-sufficient, and to improve the garrison posture of the forces there."

All Out By 1966

There are about 3,000 dependents now on the base, which has been subjected to new Cuban pressure in the form of a cut-off of fresh water normally coming from a river pumping station outside the base.

Sylvester said that stripping the base of wives and children will make Guantanamo "a little more ready."

"Dependents now on station will be returned to the U.S. at the normal expiration of their sponsors' regular tours of duty," Sylvester told a news conference.

"Since all military tours presently are for a period of two years, and no extensions will be granted to persons with dependents on station, there will probably be no dependents remaining on the base by early 1966."

To minimize the time of family separations, Sylvester said, future military tours at Guantanamo will be shortened to a year or less, "as has been done in the past for unaccompanied

military personnel at remote bases."

Cubans Fired

There was no indication that civilian employees at Guantanamo will be limited in the duration of their working tours, as will the military.

Sylvester disclosed that several hundred Cuban nationals who have been working on the base have been fired. Overall, there have been about 3,000 Cuban workers on the base. Sylvester said he could not state how many more would be fired.

He said there is a possibility that more U.S. civilian workers or military people may be sent to Guantanamo to do these jobs. Sylvester stressed there has been no decision to remove dependents, but rather to move them out gradually at the time they normally would be returning home.

Drunken Driver Movies Tested

LANSING (AP) — With police officers as cameramen and producers and drunken drivers as the stars, some off-beat movies someday may be playing in courtrooms across the state.

A plan for making sound films of persons accused of drunken driving is being tried in Kalamazoo and has been proposed to the Lansing Police and Fire Board.

Harold F. Lillie, director of the Greater Lansing Safety Council, recommended trying the plan here.

In a letter to the board, Stanley G. Peck, Lillie's former assistant and now Kalamazoo Safety Council Director, indicated that juries which might be hesitant to convict on police testimony or on the strength of tests, would have less trouble making up their minds if they saw the defendant in action.

The use of film has raised conviction rates in other cities from slightly more than 50 per cent to as high as 95 per cent, he said.

Peck said the 200 drunken driving arrests in 1962 cost Kalamazoo County an estimated minimum of \$50 a day in jury trial fees alone. The cost of film and processing for the same 200 drivers would have been \$2,000, he said.

LAWRENCE BLAHNIK, son of Mr. and Mrs. Lawrence Blahnik of Wells, received one of Scouting's highest awards Tuesday evening when Clarence Konas, district Scout Commissioner presented him with his Eagle Badge during the Court of Honor at the open house of Troop 466 at the Dehlin-Olson-Maniaci clinic. Mrs. Blahnik is shown pinning the award to her son's Scout uniform. Bernard Cudahy of Marquette, district Scout Executive, attended the open house and addressed the Scouts and their parents.

Ticket Driver For Minor Mishap

Elmer S. Belanger, 38, Rapid River, was ticketed by State Police for improper passing in the face of oncoming traffic, following a mishap at 11:05 a. m. Wednesday on U. S. 2-41 two miles north of M-35 in Brampton Township.

Belanger told State Police he was headed north on US2-41 and was beginning to pass a car ahead when he saw an oncoming vehicle. He said he could not slow down because of slippery conditions and drove off on the west shoulder of the road and hit several mailboxes. He was not injured.

Valentine Tea

The Covenant Women of Evangelical Covenant Church will sponsor a Valentine Tea at the church Saturday, Feb. 15, at 3 p. m. A program will be presented including an organ prelude by Mrs. J. M. Olson; scripture reading and prayer by Miss Lois Borne; a vocal solo by Mrs. Ellis Movalson; vocal selections by a trio, Mrs. Donald Hirn, Mrs. Reuben Sjoquist and Mrs. Robert Olson; and a reading by Mrs. Harold Appelgren. Refreshments will be served in the church parlors following the program and the public is invited to attend.

Personals

Mr. and Mrs. William Nelson, 907 Wisconsin Ave., returned Tuesday from a three weeks visit with relatives in Batavia and Chicago.

Briefly Told

State Police of the Gladstone Post ticketed the following for traffic violations: Olive R. Peterson, Rte. 1, Ensign, defective equipment; and Irving R. Pettit, 811 Minnesota Ave., Gladstone, no operator's license.

Scientists Grow Crops In California Sewage

By WILLIAM C. HARRISON
Associated Press Science
Writer

RICHMOND, Calif. (AP)—Algae "hay" grown in city sewage is being fed to sheep by University of California researchers who have tried it themselves.

"Makes pretty good cookies," says Dr. Clarence G. Golueke. He and Dr. William J. Oswald are farming a two-thirds acre sewage pond at the university's Richmond Field Station, harvesting 40 to 50 pounds (dry weight) of the single-celled green plant organisms each day.

The material is packed with vitamins, smells like new-mown hay.

The Richmond scientists ship it to the agricultural campus at Davis for test feeding. The research is supported by grants from the National Institute of Health.

The algae, like their pond scum cousins, grow with astonishing speed. They use the sun's energy in photosynthesis—food production—more than 50 times as efficiently as the average soil farm grows conventional crops, the researchers have calculated.

Since algae farming also produces oxygen and cleans up the sewage water, Golueke and Oswald predict a far-off future for it. A moon colony farm may supply food, oxygen and water while disposing of organic waste products. Astronauts on long space voyages may be sustained by algae cultures sustained in turn by wastes.

But newly developing nations in tropical areas on earth should reap earlier benefits, Dr. Oswald says. Many of those nations, he points out, have abundant sunlight, poor soil, inadequate protein resources and booming populations.

Areas like the Mojave Desert of California may become food producing centers, he believes, with algae paying for long-distance pumping of sewage from cities. Or man may learn to algae farm the sea.

The scientists say their asphalt-lined pond provides the first full-scale test of algae farming in raw sewage.

From City Sewers
They draw some 72,000 gallons a day from Richmond sewer lines, keeping the pond filled to a depth of 10 to 12 inches. Natural bacteria swiftly

Michigan Youth, Going Blind, Sees Capitol Sights

WASHINGTON (AP)—A 16-year-old Michigan youth long will remember Feb. 11, 1964. He may never see another day like it, because Harry Botek of Mason is going blind.

Young Botek's day included a tour of the White House, not the customary tourist-type, but one in which he watched President Lyndon Johnson sign a bill and got a personally conducted tour of the press room with Pierre Salinger, press secretary to the President.

The youth got one of the pens with which the President signed a bill commemorating the 200th anniversary of the founding of St. Louis, Mo., and he was given an empty machinegun cartridge after watching a demonstration firing at FBI headquarters.

Harry also lunched with senators and visited the Bureau of Printing and Engraving.

Botek's day was arranged by Sen. Philip Hart, D-Mich., who read a story about Harry's going blind and his trip to Walter Reed Hospital for treatment. Hart learned Harry hoped to return home to Mason next week and hadn't seen any of the sights of Washington since he arrived Jan. 20.

The boy has ocular penphigus, a rare disease which attacks the membrane which covers the eyes. Doctors told his mother, who came here last week, there is no cure and they expect her son will be blind before he is 17 next Jan. 6.

RESEARCH ASSISTANT Henry Gee works in the University of California plant where sewage-grown algae is dried for experimental feeding to sheep. The protein-rich material is sterilized by the steam-heated drum dryer.

ly decompose and deodorize organic material while algae thrive in the rich effluent. Baffles in the pond form channels through which pumps slowly circulate the bright green mixture.

Harvesting is accomplished by drawing liquid through centrifuges and finally over a steam-heated drum dryer.

Residual solids and water free from organic contaminants are returned to the city sewer. The water compares in purity to average river water suitable for re-use by industry or agriculture, say the researchers. Further processing would be required to make it fit for drinking.

Drs. Oswald and Golueke estimate that an algae farm can produce some 20 tons per pond acre per year at a cost of 1 to 10 cents per pound. And they figure approximately 1 million gallons of water can be reclaimed for every ton of algae.

Or, calculated another way, a million gallons of sewage can produce one ton of algae. City sewage averages 100 gallons a day per person.

Since present sewage system treatments are largely dead costs to communities, any process returning a part of the investment should be economically attractive, the men point out.

Dean James H. Meyer of the College of Agriculture, who is supervising the extensive animal testing program at Davis, believes the algae will have to be produced at 4 to 5 cents a pound to be competitive with present stock feed supplements.

Fed to Sheep, Chickens, Mice

How do his sheep like to eat the dark green material? They accept it readily for up to about 30 per cent of their diet but begin to reject it above that.

Palatability is no real problem, however, since the algae can be mixed with hay or barley in pellets or flavored with other materials such as molasses, say the investigators.

The algae feed, containing over 50 per cent protein and rich in carotene, an important vitamin source, is equivalent in food value to cottonseed meal with carotene added, Dr. Meyer says.

Digestibility tests and chemical analyses are now under way.

Trial feedings to chickens—20 per cent of their diets—showed no effects on egg production or meat flavor although egg yolks were deeper yellow than usual due to the carotene content of the algae.

In research founded by the

Air Force, the Richmond experimenters have kept mice in a sealed glass cylinder for six weeks with algae providing their oxygen, 30 per cent of their food, and purified water. The only addition to the closed system was other food reduced to toothpaste consistency and fed into the cylinder by a grease gun gadget.

The mice thrived but showed a total lack of interest in mating, an unexpected turn the investigators haven't figured out yet.

Golden Gloves fans saw history repeating itself here Saturday night when younger brothers of former champions tangled in a 135 pound bout. Terry Sovey punched out a close verdict over Darryl Bacon of Menominee in that scrap. Sovey is the brother of LeRoy Sovey, coach of the Escanaba team and a former U.P. and Wisconsin champion. Bacon's older brother was Virgil, ex-U.P. light heavyweight titlist.

Sault Ste. Marie will stage a Terry McDermott Day to honor the former Sault Tech student on Wednesday, Feb. 26. The 23-year-old speed skating barber from Essexville was Uncle Sam's lone gold medal winner in the recently completed Winter Olympic Games. He won the 500 meter race.

Ralph Brown, the 52 year old bowling artist from Menominee reached a highlight of his illustrious career this week with an 802 series at Rettke's Lanes in Marinette. Brown, a mighty mite at 5-7 and 125 pounds, rolled games of 279, 277 and 246. He had 10 "700" counts and one perfect 300 game last season.

Coach Bob Kuntze's undefeated Carney Wolves, one of only two U.P. teams with unblemished records this season, can clinch the Big Eight Conference championship by defeating Felch Friday night. The Foresters trail Carney in the conference standings with a 9-4 record while the Wolves are 10-0 in the league. Carney has three more league games remaining after the Felch contest.

Curtis Lahti, former star basketball player at Houghton High School, has been invited to take part in the spring rookie training program of the Los Angeles Dodgers at West Palm Beach, Fla.

The race for the individual scoring crown in the Copper Country cage conference is a tight one. The current leader is Joe Marinich of L'Anse with a 22.8 average. Jon Fryxell of Houghton is second with a 22.7 average and Larry Makimaa of Ontonagon is third with a 22.5 mark.

Lucas, Johnson Leading Rookies

By The Associated Press
Jerry Lucas and Gus Johnson most likely will shoot it out to the end of the season for rookie honors in the National Basketball Association.

The two first-year men remain statistically close together after big games Wednesday night.

Lucas scored 27 points and grabbed 20 rebounds in Cincinnati's easy 147-121 triumph over Detroit while Johnson poured in 30 points and snared 26 rebounds as Baltimore downed Philadelphia for the fourth straight time 121-115.

Boston whipped Los Angeles 104-97 in overtime.

Lucas has a slight edge on Johnson in scoring and rebounding in 59 games for each. Lucas is averaging 17.9 points and 16.7 rebounds per game. Johnson stands at 17 points and 13.9 rebounds.

Johnson sparked Baltimore to

With one foot inside the throne room, the Blue Devils can slam the door on their closest challengers when they

Boom Boom Nears Mark

By The Associated Press
With the next goal he scores, Bernie Geoffrion of the Montreal Canadiens will become the third highest regular season goal scorer in the National Hockey League.

Geoffrion scored twice as Montreal blanked Toronto 4-0 Wednesday night, giving him 365 goals, the same number Ted Lindsay had with Detroit and Chicago.

Chicago whipped New York 5-2 in the other NHL game and remained in a first-place deadlock with the Canadiens.

Only Gordie Howe, still very active with Detroit, and the retired Maurice Richard of Montreal are ahead of Geoffrion, whose goals have come in 14 seasons in the NHL.

Geoffrion, who will be 33 on Valentine's Day, gave Montreal goalie Charlie Hodge enough support after the teams had battled without a score through nearly two periods.

The veteran, who returned to action recently after missing three weeks with a throat injury, fired home his first goal at 17:57 of the second period and added his second at 2:23 of the third.

Hodge, getting his first shut-out, stopped 31 Toronto shots.

Chicago kept pace with the Canadiens in handing the Rangers their fifth straight setback. Bobby Hull and Eric Nesterenko got the Black Hawks off to a 2-0 lead, but Rod Gilbert and Andy Bathgate evened it for New York.

That was it for the Rangers, though, as Ken Wharram and Red Hay tallied for Chicago in the second period. Hay added another goal in the third.

Komives Keeps Scoring Lead

NEW YORK (AP) — Nick Werkman of Seton Hall and Gary Bradds of Ohio State each are putting on a late season surge, but Howard (Butch) Komives still is the leading scorer in major college basketball.

The 6-foot-1 star of Bowling Green held his No. 1 spot for the fourth straight week with 34.6 average according to the latest statistics released today by the National Collegiate Service Bureau.

Manny Newsome of Western Michigan is second with a 33.1 average followed by Werkman's 31.9 and Bradds' 31.8 for a fourth place tie with Princeton's Bill Bradley.

play at Gladstone Feb. 21. Soo has a 7-2 record and would close out the season at 8-2 with a victory over the Braves.

If Gladstone upsets the Blue Devils, however, Ishpeming would automatically take over the top spot with its 9-3 record. The Hematites have completed their conference schedule.

If the Blue Devils lose to Gladstone, the Manistique Emeralds would have a chance to tie for the conference championship with Ishpeming. Coach Rudie Brandstrom's Emeralds have a 6-3 record and have con-

ference games remaining against Gladstone and Stephenson this weekend and Munising in their finale Feb. 21. Three straight victories would leave the Emeralds with a final 9-3 G.L.C. record.

Defending champion Escanaba puts its 7-4 record on the line Friday night in a game at Negaunee, a team that has won six of 10 conference starts. The Eskymos will close their season on Feb. 25 at Stephenson.

In addition to Manistique invading Gladstone Friday night, the Marquette Redmen will travel to Munising. Three con-

ference teams will play non-conference foes Friday night.

Ishpeming, hottest team in the Great Lakes with a string of eight straight victories after a poor start, travels to Ironwood in a game that is commanding considerable attention.

The Soo Blue Devils play host to Alpena, a Class A downstate school. Alpena is the team that handed Soo its first setback this season after the Blue Devils had defeated Manistique, Marquette, Soo Collegiate and Negaunee in their first four starts.

The Newberry Indians, who have lost 11 straight since winning their opener from Munising, will entertain Soo Loretto.

In Saturday night action the Manistique Emeralds host Stephenson while Soo travels across the bridge to meet Traverse City.

Deadline Near In K.C. Case

KANSAS CITY (AP) — Fiery Charles O. Finley of the Athletics and other American League club owners appear on the way to another head-on collision after a session here Wednesday left Finley and the city still far apart over a stadium lease.

In the first collision Jan. 16 in New York, the owners flatly rejected Finley's bid to move to Louisville and by a 9-1 vote ordered him to sign a lease in Kansas City by Feb. 1 or face expulsion from the league.

The deadline was extended to Saturday after Finley said he might take his case to court and hired Louis Nizer, famed trial attorney.

It's doubtful a lease will be signed before the deadline and the league is expected to call another meeting for next week. Finley obtained a firm commitment from Oakland, Calif., Jan. 27 and it's likely he'll ask the league for permission to move the club to Oakland.

The club owners doubtless will first try to get Finley and the city together on a compromise three-year pact. Failing that, the owners would then seem to have only two other choices:

1. Grant him permission to move the club to Oakland.
2. Follow through with their threat to take over Finley's franchise, thereby risking a law suit.

Fight Results

By The Associated Press
TOKYO — Sohn Kwang Il, 133-14, South Korea, outpointed Yukio Katsumata, 134-1/2, Japan, 10.

CHARLEY BUSS of Fond du Lac plants a sharp left hand to the face of Bob Inzeo of Waukesha in the 135 pound championship bout of the Fond du Lac Golden Gloves tournament. Buss, 25, is a veteran of 125 amateur fights and has won 111 of them. (Photo Courtesy Fond du Lac Commonwealth Reporter)

Buss Has Goal

Fondy Fighter Eyes Olympics

FOND DU LAC—A nine-year veteran of Golden Gloves competition, Fond du Lac's Charley Buss, who reached the national finals in Chicago last year is fighting with a goal for the first time in his ring career.

The 135-pound boxer, who stepped through the ropes for the first time as a high school youth, has set his sights on the Olympic trials.

In his previous nine attempts at Golden Gloves glory, Buss was strictly a "fun-fighter," spending relatively little time at training. "I always fought my way into shape," Buss says.

But this year his approach is steamed up by the hope for an Olympic shot.

Buss will be taking another step toward that goal Saturday night when he competes in the regional tournament at the Brown County Veterans Memorial Arena in Green Bay. Buss and his fellow Fond du Lac district champions will meet a team of Upper Michigan champs crowned in Escanaba last weekend.

What lifted the smooth counter-puncher's sights to the Olympic level was a bout that he considers his greatest thrill in boxing. It was a bout he lost.

"The fellow who beat me was the last Olympic champion, Quincy Daniels," the Fond du Lac native revealed. "That was in the intra-service finals."

Stepping up his training program with extensive roadwork, Buss has been working out at the Fond du Lac YMCA training room for the past year.

With his small size and quick reflexes serving as a good defense, Buss most effective weapon has been his counter-punch. He counters with catlike quickness and frequently has his opponents on the run by the end of the first round.

The 25-year-old slugger plans on retiring from the sport after this season, Olympics or not. In recent years he has served as a trainer for young gloves hopefuls in Fond du Lac. He is married and employed by a New Holstein firm.

"That Eddie Tibbetts is a drip. I used the same brand of shampoo as Sophia Loren, and he didn't even notice!"

Old Time Stars To Grace Meet

NEW YORK (AP)—A spectacular field for the two-mile, a blazing personal duel in the half-mile and a bit of nostalgia are likely to steal the show from the traditionally featured mile run tonight in the 96th New York A.C. Games at Madison Square Garden.

The nostalgia will be provided by Princeton's Bill Bonthron, Penn's Gene Venzke and Kansas' Glenn Cunningham, who finished in a near dead heat in the NYAC Baxter mile in 1934. They'll don running clothes and jog a lap in the 30th anniversary of their race.

Jesse Owens and Harrison Dillard, who collared eight Olympic gold medals between them, also will take a turn around the Garden track.

The two-mile has a definite international flavor in this Olympic year, with entries from Canada, Australia, Ireland, Costa Rica and the U.S. Toronto's 20-year-old Bruce Kidd, who has never lost on the Garden track, could be hard-pressed to defend.

The half-mile features the rematch of Villanova's Noel Carroll and Toronto's Bill Crothers, each a potential record-breaker. Crothers beat Carroll by a yard in their only other meeting this

winter, clicking off an American record 1:50 in New York's Millrose Games.

The rangy Carroll was closing fast, however, and vowed he would be under 1:50 before the season was over. He made it stand up with a spectacular 1:48.7 anchor lap on Villanova's record-setting two-mile relay team in Boston.

Little Tom O'Hara, the Chicagoan with the unorthodox style and the killing kick, is favored in the mile. He is unbeaten in four major mile cup races this winter, with a 4:00.6 effort in the Millrose Games.

Detroit Scout Dies In Crash

CHICAGO HEIGHTS, Ill. (AP) — A Detroit Tigers baseball scout and his wife died Wednesday in an auto-truck collision.

Theodore Pawelek, 43, and his wife, Dorothy, 37, of Chicago Heights died in the collision on U.S. 30 in Chicago Heights.

Pawelek had served as a scout for the Detroit Tigers baseball team for several years. He caught four games for the Chicago Cubs in 1946.

North Carolina Cager Scores Too Many Goals

By HAL BOCK
Associated Press Sports Writer

Billy Cunningham is a wonderful basketball player but the North Carolina star does have one drawback. He scores too much.

Cunningham hit 10 baskets against New York University at Madison Square Garden Wednesday night, but he would have settled for eight. The other two drew offensive fouls and the high-scoring junior spent the last 11 minutes watching from the bench as the Violets held off a desperate Tar Heel rally and won 69-68.

NYU led by seven when Cunningham drew his fifth personal with 11:29 remaining. But instead of fouling, North Carolina rallied and caught the Violets. Bryan McSweeney's bucket put UNC in front 66-65 with two minutes to play.

Then a couple of soph pulled the wilting Violets together. Carleton Rooks regained the lead on a jump shot and Stan McKenzie stole the ball and drove in for a 69-66 NYU lead. Barry Kramer led the Violets with 22 while Cunningham's 23 topped all scorers.

Fouls also figured prominently in West Virginia's 86-84 victory over Pitt. The Panthers lost

four players on personals and the Mountaineers one as 68 fouls were called.

Cal Sheffield led Pitt with 22 before fouling out with eight minutes to play. Bill Maphis' 22 topped West Virginia.

Seventh-ranked Vanderbilt rallied from a nine-point half-time deficit and then lost in overtime to Southeastern Conference rival Georgia Tech 75-71. The victory moved the Engineers into a first place SEC tie with Kentucky.

It was a costly triumph for Tech, though. High scorer R. D. Craddock took a bad tumble while driving for a basket with 1:35 left to play. Craddock, who led Tech with 20 points, flipped over and was knocked unconscious. He suffered a concussion and severe head laceration.

The point makers were also hard work. Butch Komives of Bowling Green, the country's leading scorer with a 34.3 average had 30 as the Falcons beat Kent State 82-68. Runner-up Manny Newsome of Western Michigan hit 45 in an 81-67 victory over Toledo.

Nick Werkman, the leading scorer a year ago, contributed 37 as Seion Hall whipped LaSalle 75-68. The total increased Werkman's per game average to 32.2, third best among the majors.

Tenth-ranked DePaul narrowly escaped from upset-minded Marquette with a 72-69 victory. Jesse Nash scored 29 including the last eight points as the Demons pulled it out.

It was DePaul's 15th victory in 17 starts and Marquette's eighth straight setback in a 4-14 season.

The only other ranked team in action was Villanova and the Wildcats got a boost from Wally Jones to whip Duquesne 73-63. Jones, hurt in last Saturday's upset loss to LaSalle, scored 22 as eighth-ranked Villanova ran its record to 18-2.

field goals but made only 12 of 23 at the foul line.

All 14 Michigan Tech players scored in the rout of Northland. Bill Massay, playing only 20 minutes, led the attack with 12 field goals in 16 tries for 24 points. Tech led 50-22 at the half in winning its fourth game in 14 starts. Northland, paced by Jim Hanrahan's 24 points, is now 5-13.

Michigan Scores

By The Associated Press
BASKETBALL

Indiana Quint Keeps Top Spot

By The Associated Press
Washington of St. Louis and Assumption of Worcester, Mass. used excellent showings against major opponents as a springboard for advancement in The Associated Press small-college basketball poll this week.

Each climbed two places, Washington to fifth and Assumption to sixth. Evansville, Ind. retained a slim first place margin over Grambling of Louisiana with Pan American, Tex. holding the 0.3 spot and Hofstra moving one notch to fourth.

Evansville collected five votes for first place and 72 points in the latest balloting by a regional panel of eight writers. The Aces turned back Butler, a major team, 83-73 and Southern Illinois 94-73 to lift their record to 16-2.

Grambling polled three first place votes and 68 points. The Tigers whipped Texas Southern 91-84 for their 20th victory against a lone defeat. Pan American dropped an 87-79 decision to Toledo, another major team, for an 18-4 mark. Hofstra recorded victories against West-

Fischer Signs Braves Contract

MILWAUKEE (AP) — Hank Fischer, a right-hander, returned his signed 1964 contract to the Milwaukee Braves Wednesday.

The 24-year-old Fischer had a 2-0 record with Toronto in the International League and 4-3 with Milwaukee last year. In 31 appearances with the Braves, he struck out 72 and walked 28 in 74 innings.

Wilhelm Signs White Sox Pact

By MIKE RATHET

Associated Press Sports Writer

Hoyt Wilhelm chuckles when he thinks of baseball's scholarly rules committee, draped over a catcher's mitt, tape measures out, trying to legislate against his success.

Wilhelm, who signed with the Chicago White Sox Wednesday for his 13th season in the majors will be lobbying his knuckleball up to the plate and into a king-size catcher's mitt for the last time—although he expects to be pitching for at least two more years.

A 40-year-old right-hander with the most impressive relief pitching statistics in major league history, Wilhelm became the center of a major controversy this winter when the rules makers decided to ban the over-sized mitt developed to share his flutterball.

After announcing their decision, the rules makers relented—and decided the big mitt, 40-50 inches in circumference, could be used for the 1964 season but

would be banned thereafter in favor of the standard 34-inch glove.

"I don't think it will affect me either way," said Wilhelm. "After all, I've only been throwing to the bignitt for about three years and I had some good years before it came along."

Wilhelm had a 5-8 record last season, but his 2.65 earned run average was more indicative of his work. He also became the winningest relief pitcher in history with 75 victories and the most overworked with a record 1,123 innings pitched.

Besides Wilhelm, the White Sox also signed another pitcher, rookie Tom Hoagland.

Shortstop Dick Howser and first baseman Fred Whitfield signed with Cleveland, outfielders Russ Snyder and Paul Blair with Baltimore, third baseman Ed Charles with Kansas City, pitcher Hank Fischer with Milwaukee and outfielder Rex Johnston with Pittsburgh.

MANISTIQUE

KARLA JOAN NELSON, daughter of Mr. and Mrs. Harley H. Nelson, 446 Delta Ave., weighing in at 13 pounds 11 ounces, is believed to be the largest baby born in Schoolcraft Memorial Hospital. Her physician, Dr. Duane L. Waters, says she is about the size of a normal 3-month-old baby. (Daily Press Photo)

Large Baby Girl Born Here To Harley Nelsons

Mr. and Mrs. Harley H. Nelson, 446 Delta Ave., are the parents of a daughter who is believed to be the largest baby born in Schoolcraft Memorial Hospital. The infant weighed 13 pounds, 11 ounces and is in excellent health. Mrs. Nelson is the former Lois Foye of Manistique.

The baby is the fifth in the family and has been named Karla Joan. The other children, all weighed 7½ pounds except the third, Dean, now 5, who was 8 pounds, 15 ounces. The others are Brady 10, Kim, 7 and Kelli, 3.

The new baby, delivered by Dr. Duane L. Waters, Feb. 5, is reported to be "good," eats a regular four ounce feeding and for the past couple nights has slept through from 9:15 p. m. to 4 a. m.

Curtis

The Cribbage Club met at the home of Mr. and Mrs. Vic Litzinger. High score was held by Harry Wickam and low by Delmer Humphrey Sr.

Lakes Group

Manistique Lakes Association held a business meeting at the James Kilburn home. Plans were made for packaging and mailing out the new area brochures. A progress report on the new Fish Hatchery being built in Curtis was given.

Burr Howard is a patient at University Hospital at Ann Arbor.

Mrs. Alfred Tuttle is staying at the home of her daughter, Ruby Webb, while Mrs. Webb is a patient at Ferguson-Drost-Ferguson Clinic at Grand Rapids, where she had surgery. Curtis Knitting Club met with Mrs. Nadine Wright. Mrs. Wanda Rossin was hostess to Curtis Quilters.

Lester Ackley took a 20 pound northern pike from Big Manistique recently.

State Briefs

LANSING (AP) — Gov. George W. Romney Tuesday appointed Fran Zinn of Marshall to the Advisory Council of Mental Health Services. The appointment, expiring next year, requires Senate confirmation. Zinn, 58, succeeds Mrs. Nancy Scott of Sault Ste. Marie, who resigned.

SAULT STE. MARIE (AP) — Formal approval of a contract for construction of the first 100 units of public housing for the aged here was given Tuesday to Miller - Davis Co. of Kalamazoo on a low bid of \$1,195,000.

Construction to begin about March 1. Completion is scheduled by summer of 1965.

DETROIT (AP) — Ground was broken Tuesday for construction on a \$25 million professional plaza in the Detroit Medical Center. The first two structures in the proposed complex of 14 medical and office buildings are scheduled for completion in mid - 1965.

Site For Marker

LANSING (AP) — The State Historical Commission has added the 105 - year old Morton House of Benton Harbor to its list of registered sites eligible for a state historical marker. The Benton Harbor Federation of Women's Clubs will purchase the marker for the building, now used as a women's clubhouse.

Missionary At Methodist Church

Mrs. Dean (Marjory) Schowengerdt, missionary from Korea, will speak at the First Methodist Church Tuesday, Feb. 18 at 7:30 p. m., while on a tour of 14 churches in Upper Michigan.

A graduate of Kansas State University, she and her husband left for Korea in 1952. She taught English in Japan until 1954, when she was able to join her husband in Korea. Since she has been working with him at the Union Christian Service in Taejon. It is an interdenominational center with a boys' orphanage, babyfold, rural service and training, TB rest home and a food cannery.

Mrs. Schowengerdt has been teaching home economics to rural leader trainees and directs the babyfold, which has 45 infants from several days to 5. She also taught English in the Methodist seminary.

This is the second furlough for the family, after serving two 5-year terms. They will return in August.

NMU Consultant Will Meet With Retailers Monday

Harold S. Fisher, business consultant for Northern Michigan University, will meet Monday at 7 p. m., in Liberty Hall with the Retail Division of the Top O' Lakes Chamber of Commerce to discuss plans for personnel training. A program similar to that held earlier for bank employees is planned.

Briefly Told

A special program of music will be held at the 7 p. m., worship service at Bethel Baptist Church Sunday, Feb. 16. The Rev. and Mrs. Paul van Gorkom and family of Oscoda will join the Rev. and Mrs. David A. van Gorkom and family in a musical program.

The Methodist Youth Fellowship meets Sunday at 5 p. m., in Fellowship Hall. A workshop will follow. Members are to bring sack lunches. Counselors are Mrs. Bernard Grace and Mrs. Stanford Grimes.

Coach Rudie Brandstrom is scheduled to return today from Duluth, where he was called by the death Friday of his mother.

Elaine Christensen, 189 N. Cedar St., was taken by ambulance to Schoolcraft Memorial Hospital Feb. 11.

Joseph Davis, 630 Garden Ave., was dismissed from Schoolcraft Memorial Hospital.

VFW Auxiliary meets Monday for a social hour at 8 p. m., in the VFW clubrooms. Hostesses are Mrs. Roy Stewart, chairman and Mesdames William Belleville, Leo Cameron, John Lehman and Ivan Brock.

Baptist Womens' Missionary Society meets Monday at 7:30 p. m., at the church. Mrs. George Johnson is in charge of the program entitled "Pace-maker for Peace." Hostesses are Mesdames Lloyd Smith, Milo Jones and Vern Vail.

HANDFUL FOR EXPORT
NEW YORK (AP)—An American woman's search for new plays for her English-language theater in Vienna is proving hard work.

Ruth Brinkmann reports that her script quest has turned up a bare handful of material, but she is optimistic about the value of initial overseas exhibit for U. S. talent.

"After all," she points out, "Edward Albee was discovered first in Berlin."

For Cheryl, School Is Fun After Absence

Through the cooperation of the Manistique Public Schools, Cheryl Kane is back in school after an absence of many months due to physical handicap.

The cerebral-palsied young lady, 16, is in Junior High School, and has told school officials proudly that she likes school and doesn't plan to miss a day.

She carries a regular work load and at noon has lunch brought to her by fellow seventh-graders. She is brought to school each morning from her home at 528 N. Houghton with the school driver training car.

A daughter of Mr. and Mrs. Charles Kane, Cheryl has seven sisters and four brothers.

The State Department of Social Welfare cooperated with school officials in the successful effort to have Cheryl return to the classroom.

School Board Picks Architect

After lengthy discussion Tuesday night the Manistique board of education approved a proposal to engage Smith and Smith of Royal Oak as architect for a new elementary school to be built here and for a redesign of use of the high school building. The firm was one of two interviewed.

Board members discussed possibility of using the architect for site selection for the new school, to be financed with 3.5 mill funds and a special 2-mill levy. A ceiling will be set on renovation costs for the High School.

The superintendent, E. E. Wuehle has been instructed to negotiate and develop an agreement with the firm.

The curriculum committee of the board will meet Feb. 18 or 19 to consider proposals for better utilization of the high school building. A map prepared by the future teachers club showing where children live in the eastside area was shown and studied.

A report was given by Denton Nelson, on the Vilcan-Leman planning study to be made of the city. Michigan State University staff personnel will be contracted by Vilcan-Leman to do the school phase of the study. The master plan project will take two years. The board is uncertain as yet of the role of the Vilcan Leman work in its project.

Bids

Bids were received on insurance and a school bus and were referred for analysis and study. The bus bids, exclusive of options, were \$11,225 by Hollenbeck Sales; \$12,486.79 and \$12,618.78 by Walter Linderoth. M. P. DuPuis of Escanaba, bid \$12,000 but some papers apparently were not included, so the board could not determine if options were included in this price.

The general liability insurance bids were from Denny Insurance, \$412.21; Savings Assurance, \$539.82 and Employers Mutual, \$271.11 net.

The bid of schoolcraft Agency to provide employees, treasurer and school board member bonds at \$366 for three years was accepted. It was lower of two bidding in this category. A bid for gasoline at 10 per cent discount was received from Emery Barnes but was not accepted as the school the school presently obtains its gas for 31.8 cents per gallon.

The possibility was suggested of the school having its own gas tank, particularly when it has the bus for attendance at athletic, music and other functions.

Appointments

Approval was granted for Supt. Wuehle to serve on the legislative committee of the Michigan Assn. of School Administrators; for Carl Olson to serve on a new MEA board of reference to handle ethical problems; for J. L. Giovannini to have two - day leave to attend a concert his daughters will give at Western Michigan University; for Mrs. Taisto Orhanen to use sick leave credits to apply toward cost of education courses she studied, and for Earl LeBrasseur to serve on a panel at the U.P. Librarians and Trustees meeting at L'Anse next spring.

LeBrasseur has been named chairman of the nominating committee of the District 7 trustee section of the U. P. Library group.

The School board authorized investment of up to \$20,000 of the special two-mill levy in bank certificates of deposit to obtain higher interest returns. Thus far, \$17,000 has been collected in this first year of the 5-year levy.

Continued teaching by Mrs. Muriel Cookson, who is 65 was approved, subject to annual review of the board, as provided in its policy book.

CHERYL KANE, 16, daughter of Mr. and Mrs. Charles Kane, N. Houghton Ave., gets help from Manistique Public Schools and fellow classmates as she attends classes. A handicapped youngster, Cheryl has been absent many months and just returned to classes in the Junior High School. She is shown above with Donald Dissinger, Junior High School principal who reports Cheryl is very enthusiastic about school. (Daily Press Photo)

City Must Grow, Schoolmen Note

If boundaries of the city of Manistique were changed, by a pulling-in to give a lower ratio of land to streets, the school district would be adversely affected, Supt. E. E. Wuehle said Tuesday night at a meeting of the Board of Education.

John W. Moffat, a member of the board, said "If the city proposes to change the boundaries by a shrinking of the area, they will have the greatest fight on their hands."

"People will be in to ask about fire and police protection, fire insurance rates, sewer and water service. "We should be thinking about adding more tax valuations to the city base, by annexing and growing, not a cutting off, no

matter how small the valuation," he said.

Supt. Wuehle explained that under state law students living in areas cut off from the city would then become students living in a different political unit of government.

The question arose when a board member reported this was being considered as a result of the Vilcan-Leman report which showed a high percentage of streets to the number of homes.

On payment of the school's share of the local cost of the Vilcan-Leman study, the board asked Supt. Wuehle to determine how soon the money is needed and to determine the correct amount. At a planning meeting with Vilcan-Leman representatives, Denton Nelson of the school board was advised the school share was \$1,724. Earlier the school board approved payment of \$1,600 plus as its share.

K-Cs Win Silver Trophy From Munising Group

The Knights of Columbus Tuesday night defeated Munising K-Cs in their fourth cribbage match, 5,328 to 5,103, thus retaining the silver peg trophy. Manistique Knights won six of nine matches and had the most lopsided win since the series began in February 1963. Manistique has won all four matches.

Breaking the 600 barrier were Pete Berger and Pat Schneider who won 615 to 544 over Rossy Anderson and Harold Coty; Fred Lesica and William Rodman who won 610-531 over Ed Erickson and Clint Trometer; John Kelly and Neil D'Amour who won 610 to 586 over Bob Leveille and Mike Haynes; and Francis Black and Napoleon Desjardins who won 600-573 over Al Chaltry and Leo St. Martin.

Other winners were posted by Roland Hoholik and Leon Duquette over Bill Dore and Frank Duquette; Joseph Gardapee and Art Fountain Jr., over Pat St. Martin and Ed Cole.

Fred Lesica counted a 28 hand in the last of the fifth game, contributing to the 610 Manistique score. Berger and Schneider held high score with 615 and Ed Erickson and Clint Trometer, low with 531.

Card Of Thanks

O'Neil

In loving memory of our husband, father, son and brother, Claude R. O'Neil who died one year ago Feb. 13, 1963.

The blessed memories we have of him we'll always cherish. And count them tenderly each day. Rest for lack of love one perish.

Mrs. Claude R. (Valera) O'Neil
Larry and Peggy Ann
Mr. and Mrs. Claude O'Neil
and Ervin Gene and
Mr. and Mrs. Vernon O'Neil
and family

World Day of Prayer Friday at 2 p.m. at Zion Lutheran Church. Fellowship Hour will follow the service.

New Schoolcraft Co. plat books are now available at the courthouse, Extension office or from 4-H members.

Story Hour Saturday at 10:30 a.m. in Manistique Public School Library. Red is the color. Treats for actors on stage for little people.

Eastern Star dinner at 6 p.m. Saturday in the Liberty Cafe dining room followed by a program at the Masonic Temple.

Chili Dinner at Cooks Town Hall Sunday from 12 noon to 4 p.m. Sponsored by Cooks High School sophomore class. All you can eat. Adults, 70c; Children 12 and under, 35c; Pre-schoolers' free.

Manistique Elkettes meet Tuesday, Feb. 18 at 8 p.m. at the Elks Temple.

4-H member "Share the Fun" contest festival to be held Mar. 19 at the Germfask school and Cooks Community Hall.

Russia Plagued By Dust Bowls

MOSCOW (AP) — The dust bowls that plagued the United States in the 1930s have come to the Soviet Union, already beset by grain and meat shortages.

Agriculture Minister Ivan Volovchenko told the Communist party Central Committee that about three million acres of arable land are abandoned each year in the Soviet Union.

"Wind and water erosion are inflicting tremendous damage on agriculture," he told a committee meeting in the Kremlin. "We must take all measures for the restoration and preservation of the fertility of eroded soil."

"In our opinion, it is necessary to adopt a special law which would provide for the strict accountability of all departments, organizations, collective and state farms for preserving soil riches and for the sensible use of agricultural land."

Not all the three million acres abandoned annually are dust bowls.

"Huge areas are subjected to erosion, become overgrown with brush, are turned into swamps and are taken out of agricultural use," Volovchenko said.

While he did not say so, wind damage is high in the arid virgin lands of Kazakhstan and Siberia that Premier Khrushchev ordered plowed up to boost grain production.

There is not enough rainfall in these areas to provide a crop cover against the winds.

Transportation Study Says:

U. P. Wood Industry Has Midwest Marketing Edge

The Transportation Committee of the Upper Peninsula Committee on Area Problems (UPCAP) has announced the release of a comprehensive report on the Upper Peninsula of Michigan.

The report prepared by Robert R. Nathan Associates, a firm of consulting economists providing technical assistance to UPCAP under a grant from the Area Redevelopment Administration, noted that:

1. While an exhaustive analysis of freight rates was beyond the scope of the study, there was evidence from an examination of specific rates for wood products that the processed and semi-processed forest products of the Upper Peninsula are in a favorable competitive position in the markets of the Midwest by virtue of a transportation cost advantage over other producing regions such as the South, New England and the Northwest.

2. The Upper Peninsula's economy is marked by small producers, not only in the forest products sector, but in agriculture as well. Furthermore, expected growth in manufacturing will also involve many units of production too small to take advantage of carload or volume freight rates. Under the circumstances, it is important that methods be developed to encourage cooperative shipping arrangements either through shippers' pools or less

formal agreements which would enable small units to take advantage of carload and volume rates. Such techniques would provide a stimulus to the development of indigenous manufacturing in the region.

Seaway Vital

3. In terms of distance from the U. P.'s primary markets, the eastern part of the Upper Peninsula is even more remote and the report recommends that the eastern U. P. must recognize its important markets are in Chicago, Milwaukee, Minneapolis and Duluth as well as in Lower Michigan. Development programs must be designed to take full advantage of these marketing opportunities.

4. The waterways system of the Upper Peninsula has been critical in providing low cost transportation particularly for the movement of low value bulk commodities. Were it not for the presence of low cost water transportation, the economic position of the Upper Peninsula would be considerably worse.

5. One of the primary back hauls of water transportation is bituminous coal; and if natural gas were brought in as a competitive energy source, it could have serious effects on the utility rates in the entire region. The report suggests that under the circumstances, it is important to examine the general impact of a natural gas pipeline on not only the cost

of energy to the mining community, but to the area as a whole.

6. Current air - passenger movement in the U. P. is largely related to business travel. The resort operators and tourist associations must increase their efforts to develop air-tourist traffic through "package" deals.

7. It would be difficult on the basis of existing traffic to justify an east-west high-speed thoroughfare across the Upper Peninsula. In fact, an east-west expressway would tend to discourage the casual touring of the region which is so common and would reduce the opportunities of the Upper Peninsula to hold visitors for longer periods by exposing them to its many and varied attractions.

8. The construction of a Wisconsin north-south thoroughfare would speed visitors to the Upper Peninsula and would result in substantial increases in tourist flows.

9. The Mackinac Bridge has limited value as a point of access for commercial traffic particularly in view of the fact that at this time a large portion of commercial transportation requirement of the U. P. is for the movement of bulk commodities largely by water and rail movement.

Toll Cuts Opposed

10. Mackinac Bridge users are largely tourists and the cost of the toll represents a negligible part of their budget. A cut in the toll rate, even substantially, is not likely to stimulate a significant volume of additional passenger traffic.

11. In order to provide greater use of the bridge, the following recommendations were made:

A. That the Bridge Authority be asked to offer a real quantity discount on passenger traffic.

B. Tourist establishments and associations in the Upper Peninsula consider the possibility of a rebate on the toll charge for anyone staying in the U. P. for a minimum number of days. A program of this sort would promote attention to the Upper Peninsula and its recreation facilities. A similar program should be undertaken to include the International Bridge if adverse effects develop.

C. A careful study be made of commercial traffic on the bridge in order to determine the kind of selective rate cuts which might be developed to increase the commercial utilization.

D. That the feasibility of a rail addition be investigated. The Transportation Committee of UPCAP met in Escanaba at the Chamber of Commerce Building yesterday to review the report in detail and to determine the next steps for action. A Peninsula-wide transportation seminar is under consideration and a planning committee will meet in Escanaba on Feb. 19 to set up a proposed program and schedule.

Through such efforts, the committee expects to bring together an effective action program dealing with the transportation problems of the Upper Peninsula.

NMU Band Will Offer Concert Friday, Feb. 21

MARQUETTE — Northern Michigan University Band, under the direction of Lorin C. Richtmeyer, will present its annual winter concert at 8:15 p.m. Friday, Feb. 21, in the Little Theater. The public is invited to attend. There will be no admission charge. For the first time, the NMU Band Concert will feature two bands. Part of the program will be presented by the 65-piece concert band, comprised of essentially the same membership as the marching band. The second portion of the program will feature the newly organized wind and percussion ensemble.

Personnel of the NMC concert band includes: Bark River, Clyde Gasparich; Carney, Karen Guard; Escanaba, Loren Wangerin, Brian Wood; Menominee, Stephen Hudson, Ken Duquaine; Newberry, Suretta Thomas; Seney, Beth Tobin; Stephenson, Neil Lacasse.

Chrysler Builds At Kokomo, Ind.

KOKOMO, Ind. (AP)—Chrysler Corp. announced it would build a "multi-million dollar" plant in Kokomo to replace its Casting Division here. The casting plant employs 500 persons in producing 62 different aluminum castings for the firm's cars. The new building is expected to be in full production in 1966. It will be near Chrysler's transmission plant here.
